*Introduction to Personal Finance* John E. Grable, Lance Palmer, 2022-02-08 Every financial decision we make impacts our lives *Introduction to Personal Finance Beginning Your Financial Journey 2e* is designed to help students avoid early financial mistakes and provide the tools needed to secure a strong foundation for the future Using engaging visuals and a modular approach instructors can easily customize their course to topics that matter most to their students This course empowers students to define their personal values and make smart financial decisions that help them achieve their goals *Creating Value with Science and Technology* Eliezer Geisler, 2001-08-30 Do science and technology create value for society and the economy and how might one go about measuring it How do we evaluate its benefits Can we even be certain that there are benefits Geisler argues that there are benefits and that they outweigh in value the negative impacts that inevitably accompany them His revolutionary new book goes on to show that they can also be measured and evaluated and in one volume all of the existing knowledge on how to do it is compiled then Geisler's own methods are offered The result is a compelling argument that the value of science and technology in our lives has indeed been positive and that the economic well being of all individuals organizations and nations rests upon them Geisler starts off by describing his conceptual framework for the evaluation of science and technology and the impact and benefits that proceed from them He discusses the nature of evaluation in general terms and then in the specific context of science technology and innovation together He reviews the state of our present knowledge and assesses the nature of value creation itself Throughout Geisler remains fixed on his driving thesis Although there are certainly some negative impacts from science and technology on the whole the results of its outputs are positive He shows how they have contributed to a range of activities and institutions particularly to the improvement of health and human welfare worldwide Finally after discussing the theories of evaluation he gets down to the practice providing readers with a way to assess science and technological innovations for themselves **Equity Value Enhancement** Carl L. Sheeler, 2015-12-15 A detailed look at risk identification and value creation in private equity investment *Equity Value Enhancement EVE Governance Risk Relationships Knowledge GRRK* provides the information and tools practitioners and business owners need to work with the multitude of intangibles GRRK in equity investment decisions

The author engages readers with an insightful and brief claim Values are more than numbers He then provides support for just how important human capital is to the value creation paradox He doesn't stop there because ideas without definitive actions don't promote transformation He further challenges the reader with If you don't think outside of the box you're doomed to live in the box A user friendly manual chock full of vignettes suggestions and pithy commentary EVE is a must read for owners officers boards and advisors to derive understanding of business value drivers This book teaches the reader how to conduct more intangible asset due diligence as well as what decisions and behaviors impact value With more effective methods of risk identification measurement management and mitigation IMMM trusted advisors and owners can establish a working on the business strategy to prioritize issues impacting a company's intangible assets assets which almost inevitably create the largest component of value in flourishing companies This focus also serves to reduce risk while leveraging human capital and operational effectiveness This book challenges users of value enhancement and valuation services to demand greater intellectual rigor to best serve owners investors of the United States economic engine the midmarket company Therefore readers are challenged to look beyond the common metrics and numbers They are admonished to rely less on formulaic approaches and on software that can generate spurious opinions The reader is called to action by the author a US Marine Combat Officer veteran to lead the change You burn the boats if you want to be sure you succeed taking the island Trillions of dollars of private equity are changing hands as Baby Boomer owners and investors seek greater liquidity and legacies while investors seek higher returns from direct investment in private companies This book provides risk and human capital guidance removing some of the guesswork on valuation and value creation Provide better evidence of value equity discounts Identify and quantify risk and provide tools to manage it Inform better business management and investment decisions Create a more comprehensive valuation for equity investments Roadmap and strategy for enhancement of going concern value Governance Risk and Compliance GRC management are hot topics in today's economic environment The familiar financial metrics may not be providing adequate indications of value creation the core principle of most shareholder investment expectation To identify risk and work with it effectively practitioners need an in depth understanding of the forces at play Equity Value Enhancement is a detailed insightful guide for making better equity decisions Finally the author puts his passion front and center by offering the reader the opportunity to invest in the human capital this book addresses by encouraging support of military veteran's with combat PTSD so they may be productive citizens with the leadership and business skills provided by our country's Greatest Generation
