

# A BEGINNER'S GUIDE TO CREATING REALITY

THIRD EDITION

Ramtha's revolutionary understanding of the fabric of reality and how it is intimately interconnected with mind and the power of our observation offers us an exciting new way for exploring the mystery of who we really are. Ramtha's epic life as a conqueror of legend in a world long forgotten gave him all the tools he needed to gain his own enlightenment and conquer himself into immortality.

Finally, the carefully protected knowledge of the Schools of Ancient Wisdom and the great masters of the ages is brought out in the open for everyone to see, learn, and become masters themselves.

This book will take you on a journey of self-discovery, following Ramtha's own footsteps and reflection on the journey of his life. The main subjects discussed by Ramtha in this book are:

- A master's path to enlightenment
- Consciousness and energy as the fabric of reality
- The Observer in quantum physics
- The electromagnetic spectrum and consciousness
- Mind's impact on our life and body
- The hidden self and the personality
- Genetic manipulation and evolution
- The auric field surrounding the body as layers of frequency
- The kundalini energy and transmutation
- The seven seals and centers of consciousness in the body
- The function of the brain in creating reality

"Of all the schools and organizations I have researched over the past twenty years, Ramtha's School of Enlightenment is the most exciting. It combines philosophy and practical applications, which are producing extraordinary individuals."

Dr. J. Gordon Melton,

Director of The Institute for the Study of American Religions
