#### At a Glance:

This company has won over thirty awards in the last five years, including twenty-five International Consumer Electronics Show awards. Able Planet products are in high demand, which drives Able Planet to develop a highly efficient distribution backbone in the cloud using NetSuite, ERP3 Commerce, and OrbLINK.

#### Industry:

Consumer Electronics  
OrbLINK: Shipping  
NetSuite: ERP3 Commerce

#### Key Benefits:

- Experienced 1000% growth in small package orders with no additional warehousing and logistics cost
- Ability to process 200-300 small package orders per hour per shipping location
- Faster fulfillment production during holiday seasons helped out at 1,000 small package orders within an 8 hour shift
- Improved order accuracy by 15% and fulfillment rates by 50%, increasing customer satisfaction and cutting change-orders

#### The Challenge:

Able Planet serves a number of large retail customers including Best Buy, Brookstone, BUNN, Staples, Office Max, and Sam's Club. Additionally, Able Planet sells through their own e-commerce site, resulting in a mix of fulfillment processes. Much like drop ship and direct consumer orders, as well as shipments to the retailer's warehouses requiring complicated PLUs and BOMs labels. This resulted in the following issues:

- Ensuring the right processes were being followed in regards to packaging label requirements, different customer A/R requirements, and document shipping information was causing the warehouses to be less efficient and causing errors.
- The manual efforts in keying in shipment data into an EDI portal and shipping labels into NetSuite were limiting their warehouses throughput and driving unnecessary costs.
- The fragmented systems and processes resulted in poor visibility to customer compliance and made it harder to receive questions in the front office.

#### The Solution:

Able Planet implemented OrbLINK Shipping which captures A/R data and generates BOM labels as part of the shipping process. OrbLINK's backbone ties through NetSuite integration with NetSuite and ERP3 Commerce. This automation resulted in the following improvements:

- Simplification of multi-step process required of manual fulfillment
- Elimination of a total of 4 hours of manual tasks per day
- Creation of an error-free process with instant visibility in NetSuite

"OrbLINK offers a true white box integration strategy. OrbLINK's package tracking interface uses point-to-point technology, which provides our customers with instant access to their order status." - Brian Green, Sales and Marketing Director at Able Planet, Inc.
