habit has taught us to discern The visual path we spontaneously trace through the world depends on where we are situated in the four regions of the ontological archipelago animism naturalism totemism or analogism Each of these four regions corresponds to a way of conceiving the objects that make up the world of perceiving the continuities and discontinuities in the folds of the world and of drawing the dividing lines between humans and nonhumans From Alaskan Yupik masks and Aboriginal bark paintings to miniature landscapes from the Song dynasty and Dutch Golden Age interior scenes each image reveals through what it shows or fails to show a certain figurative regime identifiable by the formal means it uses and by the device through which it can unleash its power to act The figurative regime enables us to grasp sometimes better than words can the contrasting ways of living that characterize the human condition and its relation to the nonhuman By comparing a great diversity of visual images and artworks Descola masterfully lays the theoretical foundations for an anthropology of figuration One of the world's leading anthropologists Philippe Descola has developed a comparative anthropology of relations between humans and nonhumans that has revolutionized both the human sciences and our ways of thinking about the great ecological issues of our time His new book will be of great value to students and scholars of anthropology visual art and art history and to anyone interested in art culture and the relations between the human and nonhuman worlds

urgency of a novel or of a leading case at law is unmatched She summarizes modern economics and modern economic history with verve and lucidity yet sees through to the really big scientific conclusion Not matter but ideas Big books don t come any more ambitious or captivating than Bourgeois Equality     **The Colouring Book of Animal Totems** Mirree Louise Bayliss,2020-06 28 2 bonus Colouring Templates To bring purpose to your Dreaming For beginners kids adults alike
