Shanahan, 2024-01-25 This volume assesses the work of Meredith Monk Richard Foreman and Robert Wilson three artists who have revolutionized the craft of directing and the art of theatre in both related and unique ways Though their early artistic backgrounds differ ranging from architecture music and dance to writing they are similar in that none of them began their career as a director per se or received formal training as such They each assumed the director s role based on the demands of their complex artistic visions which combine art forms but resist synthesis finding expression in the differences and tensions between the forms The essays in this volume explore how these auteur directors combine text movement film sound and music installation and visual arts to achieve their visions employing multi perceptual modes to evoke full and rich theatrical experiences The Great North American Stage Directors series provides an authoritative account of the art of directing in North America by examining the work of twenty four major practitioners from the late 19th century to the present Each of the eight volumes examines three directors and offers an overview of their practices theoretical ideas and contributions to modern theatre The studies chart the life and work of each director placing his or her achievement in the context of other important theatre practitioners and broader social history Written by a team of leading experts the series presents the genealogy of directing in North America while simultaneously chronicling crucial trends and championing contemporary interpretation **Great North American Stage Directors Volume 6** Cheryl Black, Jonathan L. Remixing the Civil War Thomas J. Brown, 2011-11-15 In 1961 the historian and poet Robert Penn Warren remarked that the Civil War is for the American imagination the great single event of our history This volume reconsiders whether fifty years later Warren's claim still holds true Essays from specialists in art literature and history examine how contemporary culture represents and interprets the Civil War They look at the works of more than thirty artists and writers as well as multiple movements political and social to reveal the many and provocative ways in which Americans engage the Civil War today The book includes chapters on the place of Abraham Lincoln in Barack Obama's presidential campaign controversies over the symbolism of the Confederate flag and the proliferation of Juneteenth observances **Remixing the Civil War** pays special attention to the works of African Americans and white southerners for whom the Civil War was a revolutionary and defining moment Such prominent scholars as Robert H Brinkmeyer Jr W Fitzhugh Brundage Kirk Savage and Elizabeth Young explore the works of major artists and lesser known figures including Bobbie Ann Mason Kara Walker Dario Robleto and John Huddleston The authors find that Americans today openly and playfully manipulate familiar images of the Civil War to explore the malleability and permeability of traditional social categories like national identity gender and race This collection continues the conversation Warren began fifty years ago although taking it in unorthodox and challenging directions to offer fresh and stimulating perspectives on the war's presence in the collective imagination of the nation
