_____ 14

- 2 Read the text and complete the sentences.

Where is the virtual trip going?

The virtual trip is going to the Moon.

- 1 What three things are you not allowed to do on the trip?

2 Who will bring you something to eat?

3 How long will the journey take?

4 What will you see when you fly over the Moon?

5 Why will the space shuttle land on the Mir Space Station?

6 What beautiful sight will you always remember?

7 What will your captain talk about during your journey?

Earth from above

Welcome to the Space Flight Simulator, where the latest computer technology will allow you to travel in a virtual Lunar Space Shuttle. Today, we are making a virtual short trip to the Moon and back. Before we take off, please listen carefully to the safety announcement.

Please sit in your seats and put on the safety belts ready for take-off. No smoking is allowed inside the ship. Space flight is dangerous, so please do not stand or move about during the flight. Our robot flight attendants will bring you snacks and drinks during the flight. In an emergency, please remain in your seats. The robot flight attendants will tell you what to do.

Our flight today will take 30 minutes and we will make one orbit of the Moon before returning to Earth. From your window, you will see the exact place where Neil Armstrong landed on the Moon in 1969. As we fly over the Moon's surface, we will fly past the Mir Space Station. We will land here for a short period of time, while we collect a new robot flight attendant. Please don't get out of your seats or leave the ship during this time.

On our return journey, you will have a perfect view of the Earth. It is a beautiful sight and one you will never forget. Your captain will describe the sights and tell you interesting space facts throughout your journey. If you want to ask any questions please ask one of the robot flight attendants who will be happy to help you.

Resources in Education ,1991-12 **Glencoe Mathematics** ,2001 Electricity, Principles and Applications Richard J. Fowler,1984 For students just beginning their

study of electricity No previous formal training in the subject is assumed **What's in a Word?** Samuela Eckstut-Didier,Karen Sorensen,1992 What s in a Word is designed to help intermediate students increase their active and passive vocabulary by focusing on meaning pronunciation and usage What s in a Word Introduces vocabulary thematically through high interest readings Develops vocabulary building strategies and expands on known words Teaches effective use of a monolingual dictionary Provides a communicative context for word practice A removable answer key is provided

Young Living -Tchr. Wraparound Nanalee Clayton,1994 **Assessment for Educational Leaders** W. James Popham,2006 Written specifically for school administrators and those preparing to be school administrators this easy to read book contains only what s needed by leaders in today s assessment dominated world of educational accountability The content of the text is unabashedly practical addressed specifically to the assessment related needs of today s school administrators The real world orientation of the book based on the author s extensive and continuing work in the nation s public schools makes the book attractive to those instructors who teach assessment courses taken by prospective school administrators Students and in service school administators will recognize that this text is not loaded with dry abstruse content about measurement and psychometric exotica This book deals with the real world measurement issues that today s educational leaders will most certainly encounter **Classic Writings on Instructional Technology** Donald P. Ely,1996 Selected for their influence on the field their continued reference over the years and the reputations of the authors 17

seminal works on educational technology have been gathered together to form this valuable collection. These previously published articles have contributed to the conceptual underpinnings of the field and are widely used in educational technology courses. However, they are sometimes difficult to locate. This publication solves the problem by providing a single source for the works. Divided into four sections: Definition and Conceptual Background, Design and Development Functions, Delivery Options, and The Profession, the work also lists classic books in the field with annotations.

The Pharmaceutical Era, 1898 **Basic Environmental Technology** Jerry A. Nathanson, 1997. This updated edition offers a basic and practical introduction to the technical aspects of water supply, waste management, and pollution control. Readers with limited experience in science will find the review sections helpful. This book also reflects the new technical and regulatory developments in the field.

Publishers' Circular and General Record of British and Foreign Literature, and Booksellers' Record, 1895 *Water Research*, 1986 *Viewpoints*, 1930 **Read and Succeed** Caroline Banks, Mary-Jane McCarthy, 1993 *Educational Assessment of Students* Anthony J. Nitko, Susan M. Brookhart, 2007. From two of the best known authors in the field of classroom assessment comes a revision of one of the best assessment books. Features include hundreds of examples, directions for crafting both traditional and alternative assessments, checklists for evaluating classroom assessments, scores of strategies for assessing problem solving and critical thinking, methods for aligning classroom assessment with state standards and NCLB requirements. Reviewers have described the book as the best on the market for its completeness and balanced approach to classroom assessment.

Book Review Digest, 2002-05 *Physical Review*, 1995-12. Publishes papers that report results of research in statistical physics, plasmas, fluids, and related interdisciplinary topics. There are sections on: 1. methods of statistical physics; 2. classical fluids; 3. liquid crystals; 4. diffusion, limited aggregation, and dendritic growth; 5. biological physics; 6. plasma physics; 7. physics of beams; 8. classical physics, including nonlinear media; and 9. computational physics.

Counseling and Psychotherapy Dave Capuzzi, Douglas R. Gross, 1999. Designed for students who are beginning their study of individual counseling and psychotherapy, this book provides the foundation students need to make decisions about follow-up study of specific theories and to develop their own personal theory of counseling and psychotherapy.
