Lenoir, Luis Paulo Rodrigues, Hermundur Sigmundsson, 2020-06-22 *The Teaching of Design and Innovation* Gabriel J. Costello, 2020-05-06 This book is about design and innovation what it is and how to teach it The blending of design and innovation is having an increasing impact not only on the world of products and services but on a wide variety of disciplines such as information and communications technology ICT business education and medicine However there is a lack of books on teaching the subject despite the significant growth of interest in both academia and the workplace This book addresses this gap by outlining foundational principles for the teaching of design and innovation and by offering a practical process for implementing the pedagogy in academic institutions and outside academia in the context of continuing professional development CPD It describes two undergraduate case studies that aimed to instill design and innovation competences in students of both engineering and business disciplines The cases involved student teams working with incubation centre start ups and multi national subsidiaries One of the aims of this book is to provide a resource for continuing professional development CPD Consequently a third practitioner based case study is presented as an example of research informed teaching In addition the book proposes the concept of Simulation Action Learning SAL as an enhancement of Project Based Learning PBL **Pindar and Greek Religion** Hanne Eisenfeld, 2022-12-01 Pindar's victory songs teem with divinity By exploring them within the lived religious landscapes of the fifth century BCE Hanne Eisenfeld demonstrates that they are in fact engaged in theological work Focusing on a set of mythical figures whose identities blur the boundaries between mortality and immortality Herakles the Dioskouroi Amphiaraos and Asklepios she newly interprets the value of immortality in the epinician corpus Pindar's depiction of these figures responds to and shapes contemporary religious experience and revalues mortality as a prerequisite for the glory found in victory The book combines close reading and philological analysis with religious historical approaches to Pindar's songs and his world It highlights the inextricability of Greek literature and Greek religion and models a novel approach to Greek lyric poetry at the intersection of these fields *The War on Corruption in China* Sunny L. Yang, 2022-12-30 Having engaged in an intensified war against corruption for more than four decades since the period of reform and opening up China is now at a turning point in its anti corruption agenda Many believe that building government integrity has been a top down process in China and the anti corruption strategies taken by the current administration seem to have confirmed it This book challenges the view by analyzing local anti corruption innovations in recent years and argues for the importance of bottom up efforts in controlling corruption The book attempts to answer the question of whether the rise of local anti corruption innovations has helped China to pursue anti corruption reform more effectively and if so why It proceeds to analyze the major patterns of local anti corruption innovations the ways in which they have been initiated and implemented and the factors influencing their success or failure The book includes

more than 400 cases of local innovative anti corruption reforms in China in recent years This book will be a useful reference for those interested in learning more about anti corruption studies and also contributes to the study of corruption and anti corruption reform in China by providing solid and fresh evidence of anti corruption innovation by local governments
