

**JUNE EXAMINATION  
GRADE 12**

**2023**

**MARKING GUIDELINES**

**ACCOUNTING  
(PAPER 1)**

**12 pages**

**MARKING PRINCIPLES:**

1. Unless otherwise stated in the marking guidelines, penalties for foreign items are applied only if the candidate is not losing marks elsewhere in the question for that item (no penalty for misplaced item). No double penalty applied.
2. Penalties for placement or poor presentation (e.g. details) are applied only if the candidate is earning marks on the figures for that item.
3. Unless otherwise stated, give full marks for correct answer. If answer is incorrect, mark workings.
4. If a pre-adjustment figure is shown as a final figure, allocate the part-mark for the working for that figure (not the method mark for the answer). Note: if figures are stipulated in memo for components of workings, these do not carry the method mark for final answer as well.
5. Unless otherwise indicated, the positive or negative effect of any figure must be considered to award the mark. If no + or - sign or bracket is provided, assume that the figure is positive.
6. Where indicated, part-marks may be awarded to differentiate between differing qualities of answers from candidates.
7. If candidates provide more than the required number of responses, inspect all responses to give benefit to the candidate. Penalties may be applied for foreign entries if candidates earn full marks on a question (max. -2 per Q).
8. Where penalties are applied, the marks for that section of the question cannot be a final negative.
9. Where method marks are awarded for operation, marker must inspect reasonableness of the answer.
10. Operation means 'check operation'. 'One part correct' means operation and one part correct. Note: check operation must be +, -, x, ÷, or per memo.
11. In calculations, do not award marks for workings if numerator & denominator are swapped — this also applies to ratios.
12. In awarding method marks, ensure that candidates do not get full marks for any item that is incorrect at least in part. Indicate with a  $\circ$ .
13. Be aware of candidates who provide valid alternatives beyond the marking guideline. Note that one comment could contain different aspects.
14. Coders: f = foreign item; p = placement/presentation.

Acc Grd12 June 2014:

**Message of the President of the United States Transmitting the Budget for the Service of the Fiscal Year Ending ... United States,1948      Active Learning: Theoretical Perspectives, Empirical Studies and Design Profiles**

Robert Cassidy,Elizabeth S. Charles,James D. Slotta,Nathaniel Lasry,2019-07-11 This book represents the emerging efforts of a growing international network of researchers and practitioners to promote the development and uptake of evidence based pedagogies in higher education at something a level approaching large scale impact By offering a communication venue that attracts and enhances much needed partnerships among practitioners and researchers in pedagogical innovation we aim to change the conversation and focus on how we work and learn together i e extending the implementation and knowledge of co design methods In this first edition of our Research Topic on Active Learning we highlight two of the three types of publications we wish to promote First are studies aimed at understanding the pedagogical designs developed by practitioners in their own practices by bringing to bear the theoretical lenses developed and tested in the education research community These types of studies constitute the practice pull that we see as a necessary counterbalance to knowledge push in a more productive pedagogical innovation ecosystem based on research practitioner partnerships Second are studies empirically examining the implementations of evidence based designs in naturalistic settings and under naturalistic conditions Interestingly the teams conducting these studies are already exemplars of partnerships between researchers and practitioners who are uniquely positioned as in betweens straddling the two worlds As a result these publications represent both the rigours of research and the pragmatism of reflective practice In forthcoming editions we will add to this collection a third type of publication design profiles These will present practitioner developed pedagogical designs at varying levels of abstraction to be held to scrutiny amongst practitioners instructional designers and researchers alike We hope by bringing these types of studies together in an open access format that we may contribute to the development of new forms of practitioner researcher interactions that promote co design in pedagogical innovation [History of Soybeans and Soyfoods in the United Kingdom and Ireland \(1613-2015\)](#) William Shurtleff; Akiko Aoyagi,2015-06-14 The world s most comprehensive well documented and well illustrated book on this subject With extensive index 333 color photographs and illustrations Free of charge in digital PDF format on Google Books [New Jersey Register](#) ,2016 [The Budget of the United States Government](#) United States. Handbook of Theories in Childhood Studies brings together an international group of childhood studies scholars who work with a range of critical theories. It speaks to both scholars and students by addressing questions such as how childhoods are diversely constructed and how children's experiences can be better understood. The volume draws together a diversity of theoretical perspectives from the social sciences and humanities such as critical race studies, disability studies, posthumanism, feminism, politics, decolonialism, queer theory and postcolonialism to generate a much needed conversation about how to move childhood studies forward as a grounded field of research. The volume is subdivided into three sections: subjectivities, relationalities and structures, each of which addresses different but interrelated approaches to childhood studies theorization. This handbook will be an essential text not just for childhood studies researchers but for all those interested in theorizing what childhood is, what work it does and who children are.
