Mathematics for the 21st Century Linda Huetinck, Sara N. Munshin, 2008 This third edition of Teaching Mathematics for the
21st Century continues to help teachers let the secret out to open up to their students the wonderful discoveries and
challenges of the pattern making and problem solving aspects of a fascinating subject mathematics The rationale remains the
same to enable prospective and current teachers to access and use tools and strategies to effectively teach mathematics to
contemporary students Changing demographics knowledge of how people learn and technology all impact the way we
educate our young people This edition incorporates lessons and strategies from programs that have proven success in many
types of classrooms Many of these examples help students connect mathematics to real life situations and communicate their
understanding of the underlying concepts Although technology is constantly being upgraded ways to increase student
motivation through its application remains a goal For example since applets can enhance a lesson whether the teacher uses a
computer projector a smart board or has students work individually on computers we have identified several sources of
mathematics applets that can be correlated to various lessons Research citations and summaries have been updated to
