Japan in Transformation, 1952-2000

Jeff Kingston, 2001 AUTHOR copy Japan in Transformation explores the conservative inertias and progressive yearnings that characterise contemporary Japan The second half of the twentieth century was a tumultuous period that transformed the way Japanese view the world and act in it This ideological transformation was driven by and reinforced institutional changes economic development political ferment and the dynamic tension between prevailing norms and shifting realities While focusing on transformation this book is sensitive to the incremental and cumulative nature of change and how the past resonates powerfully in the present Old verities linger and influence the patterns pace and nature of ongoing changes As Japan enters the twenty first century it is in the midst of a third great transformation on a par with the Meiji Restoration 1868 and the US Occupation 1945-52 and it is

not yet certain whether Japan will yet again emerge from considerable adversity with the same degree of success it enjoyed in the past. The various forces that are driving the metamorphosis of modern Japan are exposing the limits of the postwar model. The logic of the economic and political arrangements that have prevailed are changing with profound consequences for society. There is ambivalence about the rapidity of change and the erosion of tenets many Japanese feel have been important to their identity as people cohesion as a community and success as a renovating democracy taming militarism and rejoining the community of industrialized societies but seems to have done a better job in containing and coping with these problems. This interpretive history focuses on the economic miracle how Japan's troubled past in Asia is debated among Japanese and how it influences its contemporary regional relations the changing role of women the implications of Japan's demographic time bomb the Third Transformation and the Lost Decade of the 1990s. *Contemporary French Cinema, 2nd Edition* Guy Austin, 2008 Tracing the history of contemporary French cinema Guy Austin addresses key issues in French films such as national identity representations of sexuality and the new realism. **India under Colonial Rule: 1700-1885**

Douglas M. Peers, 2013-11-05 Between 1700 and 1885 the British became the paramount power on the Indian subcontinent their authority extending from Sri Lankain the south to the Himalayasin the north. It was a massive empire inspiring both pride and anxiety amongst the British and forcing change upon and disrupting the lives of its Indian subjects. Yet it is not simply a history of conquest and subjugation or dominance and defeat interaction and interdependency powerfully shaped the histories of all involved. The end result was a hybrid empire India may have become by 1885 the jewel in the British crown but by that same year a series of changes had occurred within Indian society that would set the foundations for the modern states of India Pakistan and Bangladesh. This book provides a concise introduction to these dramatic changes.

America in the Progressive Era, 1890-1914 Lewis L. Gould, 2001 Covering the turbulent 1890s and the era of Theodore Roosevelt and Woodrow Wilson this new next provides a readable analytical narrative of the emergence influence and decline of the spirit of progressive reform that animated American politics and culture around the turn of the twentieth century.

The Attlee Governments, 1945-1951 Kevin Jefferys, 1992 In 1945 the Labour Government set about a major transformation of British society Dr Jefferys s analyses the main changes and relates them to debates within the Labour party on the nature of its aims and how best to achieve them. **Catalogue of the Printed Books in the Library of the British Museum** British Library, 1946 France Since 1918 H.
