*The Thesis Writing Journeys of Bachelor's and Master's Students* Bojana Petrić, Montserrat Castelló, 2024-12-20  
Completing a thesis is a crucial final stage in many bachelor's and master's programmes across Europe and beyond. However, the process of thesis writing, how it is experienced by the writers and how those experiences impact on writing, remain underexplored. This book examines the student experience of thesis writing through an interdisciplinary perspective, drawing on theories of learning, emotions and genre and narrative discursive analysis. As a result of this approach, the thesis is reconceptualised as a multilayered experience from the point of view of student writers. The chapters, which arose out of a collaborative research project across 10 European countries, employ an innovative combination of methods, including the use of journey plots, to provide a complex picture of the thesis writing process which will be of interest to readers involved in academic writing at all levels.
