*Public Education* David C. Berliner, Carl Hermanns, 2022 Twenty eight eminent essayists remind our nations parents educators school board members and politicians that our democracy is in jeopardy and that our nation s system of free universal public education is also under attack If that attack succeeds American democracy itself would be further imperiled That is because American democracy rests on a belief that the power of our government comes from the people and the diffusion of knowledge and the enlightenment of the people has been a cornerstone of our democracy since the founding of our republic America s public schools therefore have a special mandate      *Daily Graphic* J.K.
