Sensitive discussions of ethical dilemmas and fresh profiles of social workers with first person narratives to demonstrate the dynamic field students will be joining. To address the dramatic changes in the world in which social workers practice since the fifth edition was released, we have revised and added content. Centering diversity, equity and inclusion to elevate anti-racist and anti-oppressive practice, including a critical review of our profession's history. Demonstrating how the COVID 19 pandemic exposed and intensified inequities as well as ways in which social workers responded to the needs of their clients, organizations and communities. Updating language to reflect commitment to and respect for inclusivity, gender identity and nongendered identities. The content in this text is supported by a range of fully updated instructor-led and student resources that are available on its companion website [www.routledge.com](http://www.routledge.com). ## **Ubuntu Philosophy and Disabilities in Sub-Saharan Africa**

Oliver Mutanga, 2023-11-03 This book uses Ubuntu philosophy to illuminate the voices of people with disabilities from Sub-Saharan Africa. Disability literature is largely dominated by scholars and studies from the Global North and these studies are largely informed by Global North theories and concepts. Although disability literature in the Global South is now fast growing, most studies continue to utilise conceptual, theoretical and philosophical frameworks that are framed within Global North contexts. This presents two major challenges. Firstly, the voices of people with disabilities in the Global South remain on the fringes of disability discourses. Secondly, when their voices are heard, their realities are distorted. This edited book, consisting of 11 chapters, provides case studies from Botswana, Ghana, Lesotho, Uganda and South Africa. It explores disability in various fields: Inclusive education, higher education, environment, Open Distance Learning and Technical and Vocational Education and Technical Colleges. The book contributes to the ways in which disability is understood and experienced in the Global South, thereby challenging the Western hegemonic discourses on disability. This collection of contributions will be of interest to all scholars and students of disability studies, development studies, medical sociology and African studies.
