Absa Credit Card Debt Review:

Current Commercial Cases 2010 , **Finweek** ,2007 Money from Nothing Deborah James,2014-11-19 Money from Nothing explores the dynamics surrounding South Africa s national project of financial inclusion dubbed banking the unbanked which aimed to extend credit to black South Africans as a critical aspect of broad based economic enfranchisement Through rich and captivating accounts Deborah James reveals the varied ways in which middle and working class South Africans access to credit is intimately bound up with identity status making and aspirations of upward mobility She draws out the deeply precarious nature of both the aspirations and the economic relations of debt which sustain her subjects revealing the shadowy side of indebtedness and its potential to produce new forms of oppression and disenfranchisement in place of older ones Money from Nothing uniquely captures the lived experience of indebtedness for those many millions who attempt to improve their positions or merely sustain existing livelihoods in emerging economies

Multinationals, Poverty Alleviation and UK Aid Jo-Anna Russon,2023-10-12 This book analyses the complex relationship between the private sector UK official development assistance ODA and poverty alleviation in sub Saharan Africa In recent years the private sector has occupied an increasingly prominent position within UK ODA bringing a range of opportunities and conflicting interests This book first traces the trajectory of private sector engagement in ODA before setting out the theoretical and analytical framework for analysing the mutual prosperity agenda in UK ODA the notion that ODA can benefit both donor and beneficiary country interests By extending corporate social responsibility theory in the emerging field of business and development studies to ODA the book critiques the underlying assumptions contained within UK ODA multinational corporation partnerships With reference to three case studies GlaxoSmithKline plc Barclays plc and Anheuser Busch InBev formerly SABMiller the book identifies where the activities of multinational corporations support and or undermine ODA goals and the implications for the UK s mutual prosperity agenda Overall the book reflects a pragmatic approach to maximising the role of private sector actors in ODA whilst also drawing attention to the opportunities and challenges in the mutual prosperity agenda The book will be of interest to researchers from business management development studies and political science as well as to practitioners with an interest in the role of the private sector in ODA

Suid-Afrikaanse Hofverslae ,2014 **South Africa** International Monetary Fund. African Dept.,2013-10-01 This 2013 Article IV Consultation highlights that South Africa s economy has underperformed other emerging markets and commodity exporters exacerbating South Africa s already high levels of unemployment 25 percent and inequality and contributing to rising social tensions At the same time weak trading partner growth coupled with declining competitiveness and countercyclical fiscal policy have led to rising fiscal and current account deficits and made South Africa vulnerable to a prolonged reversal of capital inflows The outlook is for continued sluggish growth and elevated current account deficits Growth is projected at 2 percent in 2013 as weak consumption growth and lackluster private investment offset robust public investment and higher
