The Art of Teaching Science Vaille Dawson, Jennifer Donovan, 2020-07-16 The Art of Teaching Science has proven itself to be one of the most popular introductory texts for Australian pre service and in service teachers providing guidance on engaging students and helping develop scientifically literate citizens Beginning with an examination of the nature of science constructivist and socio cultural views of teaching and learning and contemporary science curricula in Australian schools the expert authors go on to explore effective teaching and learning strategies approaches to assessment and provide advice on the use of ICT in the classroom Fully revised and updated this edition also reflects the introduction of the AITSL professional standards for teachers and integrates them throughout the text New chapters explore a range of teaching strategies including explicit instruction active learning and problem based learning the effective integration of STEM in schools approaches to differentiation in science education and contemporary uses of ICT to improve student learning Those new to this text will find it is deliberately written in user friendly language Each chapter stands alone but collectively they form a coherent picture of the art in the sense of creative craft and science as in possessing the knowledge understanding and skills required to effectively teach secondary school science Helping each new generation of school science teachers as they begin their careers is crucial to education This is the updated third edition of this valuable textbook It contains a wonderful range of inspirational chapters All science teachers not only those at the start of the profession would benefit from it in Australia and beyond Michael J Reiss Professor of Science Education University College London

Reflective Theory and Practice in Teacher Education Robyn Brandenburg, Kathryn Glasswell, Mellita Jones, Josephine Ryan, 2017-03-30 This book offers a detailed examination of reflective practice in teacher education In the current educational context where reflective practice has been mandated in professional standards for teachers in many countries it analyses research based evidence for the power of reflective practice to shape better educational outcomes The book presents multiple theoretical and practical views of this often taken for granted practice so that readers are challenged

to consider how factors such as gender and race shape understandings of reflective practice Documenting approaches that enhance learning the contributions discuss reflective practice across the globe with a focus on pre service in service and university teachers At a time when there is pressure to measure teachers work through standardised tests the book highlights the professional thinking that is integral to teaching and demonstrates ways it can be encouraged in beginning teachers Aimed at the international community of teacher educators in schools and universities it also includes a critical examination of methodological issues in analysing and evaluating reflective practice and showcases the kind of reflective practice that empowers teachers and pre service teachers to make a difference to students
