Always Hungry, Never Greedy Miriam

Kahn,1993-12-30 The Wamira people of Papua New Guinea display what outsiders would describe as an obsession with food Who owns how many pigs how much taro grows in whose garden and who contributes what food at a feast are all questions uppermost in their thoughts Wamirans account for this preoccupation by saying that they suffer from perpetual famine They explain this by means of an elaborate and colorful myth about Tamodukorokoro a monster who would have brought them abundant food but whom in typical Wamiran style of fearing what they desire they chased away In this carefully crafted and beautifully evocative book Kahn who lived with the Wamira people for two and a half years argues that Wamirans famine has in fact little to do with the belly For Wamirans concepts of food and hunger are cultural constructs By means of food they objectify emotions balance relations between men and women communicate rivalries among men and ultimately control the ambivalent desires that they fear would otherwise control them Effectively combining analyses of myths and symbols with analytical accounts of subsistence and ritual behavior Kahn writes with a degree of nuance that takes the reader beyond academic analyses into the experience of the ethnographer and the daily lives of the people with whom she resided **A Companion to the Greek Testament and the English Version** Philip Schaff,1888 **English Mechanic and World of Science** ,1878 Harper's New Monthly Magazine Henry Mills Alden,1879 Harper s informs a diverse body of readers of cultural business political literary and scientific affairs *1,001 Things You Always Wanted to Know About the Bible, But Never Thought to Ask* J. Stephen Lang,1998-12-13 From the author of the bestselling Complete Book of Bible Trivia fascinating facts from the social and cultural history of the Bible With 1 001 Things You Always Wanted to Know About the Bible but Never Thought to Ask discover how the Bible has impacted language U S history worship music art literature movies and theater how the Bible was passed down to us plus every key person place event and idea in the Bible Bestselling Bible trivia author J Stephen Lang s intriguing tidbits will leave you yearning to know more about the world s most fascinating book Whether you are a seasoned Bible student or just getting started you will enjoy reading this invaluable resource **UMLS Knowledge Sources** National Library of Medicine (U.S.),2003 Documentation for the Unified Medical Language System UMLS Knowledge Sources including the Metathesaurus the Semantic Network the SPECIALIST Lexicon and the Information Sources Map experimental products of the U S National Library of Medicine The purpose of the UMLS is to aid the development of systems that help health professionals and researchers retrieve and integrate electronic biomedical infoeasy for users to link disparate information systems including computer based databases and expert systems **The Musical Herald** ,1881 **The Phenomenon of Mental Disorder** Petr Kouba,2014-11-18 This book provides a critical introduction to Heidegger s impact on psychiatry and psychology and has a focus on the application of his philosophy to psychiatry This is a complete revision of Heidegger s existential philosophy in the light of psychopathological phenomena Readers will find here a philosophical inquiry into the problem of mental disorder which shows Heidegger s own philosophy in a new light uncovering both its strengths and its weak points The author maps not only Heidegger s interaction with

psychiatric thought as depicted in his Zollikon Seminars but also his influence on Swiss phenomenological psychiatry The work treats Heidegger in a critical way taking the phenomenon of mental disorder as a touchstone on which Heidegger's thought is tested The results of such a critical examination are important not only for a better understanding of psychopathological phenomena but also for a new understanding of Heidegger's approach to human existence This work treats the phenomenon of mental disorder as a philosophical problem that reflects the ontological character of human existence Heidegger's approach to mental disorder is confronted with the conceptions of Foucault Deleuze and Guattari in a novel way The book is more than just an historical overview as it highlights the limits of phenomenological thought in the area of psychiatry and it shows a possible way of moving beyond them This is a philosophical work with an interdisciplinary range Scholars of philosophy and those in the growing field of philosophy of psychiatry as well as those with an interest in Heidegger Studies will be particularly interested in this work
