Questioning and Answering Practices across Contexts and Cultures Cornelia Ilie, 2021-07-26 This book showcases innovative research about the multi functional and dynamic interrelatedness of questioning and answering practices in institution and culture specific interactions ranging from under explored to extensively researched ones South Korean talk shows Japanese interviews Chinese news interviews police civilian interactions in the USA Italian interviews and courtroom examinations Japanese parliamentary debates and Prime Minister's Questions in the UK Parliament Challenging the view that questions are asked with the purpose of seeking information and eliciting answers these studies open up new research avenues through insightful investigations and critical scrutiny that problematize the question answer paradigm through which meanings are conveyed negotiated and or contested and through which relationships are established

maintained and or challenged Significant findings show that questioning and answering strategies are shaped by the specific norms and constraints of particular communities of practice while at the same time they are shaping the very same communities of practice This book will appeal to interdisciplinary scholars and practitioners across the linguistic media political legal and social sciences **Terminologie de L'éducation Des Adultes** Colin J.
