Schoeck

Envy A Theory Of Social Behaviour

William Ian Miller

Envy A Theory Of Social Behaviour:

Envy Helmut Schoeck, 1969 *Envy* was first published in German in 1966 then in an English translation in 1970 This classic study is one of the few books to explore extensively the many facets of envy a drive which lies at the core of man's life as a social being Ranging widely over literature philosophy psychology and the social sciences Professor Schoeck a distinguished sociologist and anthropologist elucidates both the constructive and destructive consequences of envy in social life Perhaps most importantly he demonstrates that not only the impetus toward a totalitarian regime but also the egalitarian impulse in democratic societies are alike in being rooted in envy *Envy* Helmut Schoeck, Michael Glenny, Betty Ross, 1969

Envy Helmut Schoeck, 1969 *The Ambivalence of Scarcity and Other Essays* Paul Dumouchel, 2014-10-01 First published in French in 1979 *The Ambivalence of Scarcity* was a groundbreaking work on mimetic theory Now expanded upon with new specially written and never before published conference texts and essays this revised edition explores Ren Girard's philosophy in three sections economy and economics mimetic theory and violence and politics in modern societies The first section argues that though mimetic theory is in many ways critical of modern economic theory this criticism can contribute to the enrichment of economic thinking The second section explores the issues of nonviolence and misrecognition in *m* *connaissance* which have been at the center of many discussions of Girard's work The final section proposes mimetic analyses of the violence typical of modern societies from high school bullying to genocide and terrorist attacks Politics Dumouchel argues is a violent means of protecting us from our own violent tendencies and it can at times become the source of the very savagery from which it seeks to protect us The book's conclusion analyzes the relationship between ethics and economics opening new avenues of research and inviting further exploration Dumouchel's introduction reflects on the importance of Ren Girard's work in relation to ongoing research especially in social sciences and philosophy *Journal of Economic Behavior & Organization*, 1994 *Morality and the Regulation of Social Behavior* Naomi Ellemers, 2017-07-14 Morality indicates what is the right and what is the wrong way to behave It is one of the most popular areas of research in contemporary social psychology driven in part by recent political economic crises and the behavioral patterns they exposed In the past work on morality tended to highlight individual concerns and moral principles but more recently researchers have started to address the group context of moral behavior In *Morality and the Regulation of Social Behavior* Groups as Moral Anchors Naomi Ellemers builds on her extensive research experience to draw together a wide range of insights and findings on morality She offers an essential integrative summary of the social functions of moral phenomena examines how social groups contribute to moral values and explains how groups act as moral anchors Her analysis suggests that intragroup dynamics and the desire to establish a distinct group identity are highly relevant to understanding the implications of morality for the regulation of individual behavior Yet this group level context has not been systematically taken into account in research on morality nor is it used as a matter of course to inform attempts to influence moral behavior Building on social

identity and self categorization principles this unique book explicitly considers social groups as an important source of moral values and examines how this impacts on individual decision making as well as collective behaviors and relations between groups in society Throughout the book Ellemers presents results from her own research to elucidate how social behavior is affected by moral concerns In doing this she highlights how such insights advance our understanding of moral behavior and moral judgments for of people who live together in communities and work together in organizations Morality and the Regulation of Social Behavior is essential reading for academics and students in social psychology and related disciplines and is an invaluable resource for practitioners interested in understanding moral behavior

Poetry and Power Robert C. Evans,1985 The Spectator ,1873 A weekly review of politics literature theology and art Promises, Performance, and Prospects Antonio Martino,2005 Since 1970 Antonio Martino has authored 13 books and more than 150 papers and articles on economic theory and policy This modern collection of writings is from Martino s practical and theoretical perspective as he has personally encountered many of the economic and political issues presented in these essays Divided into six parts this volume discusses major economic topics such as fiscal responsibility government and over government the underground economy and the failure of governments to deliver on their promises of economic prosperity discretionary monetary policy and the future of freedom and the human flourishing that depends upon it As Dwight Lee comments in his foreword to the volume From Adam Smith to James Buchanan the insights of political economics have been motivated by and illustrated with contemporary concerns that keep recurring in only slightly different guises This is certainly the case with the concerns Martino addresses in his papers Antonio Martino is well known for his classical liberal views having developed his economic opinions as a law student at the University of Messina and then as a student of Milton Friedman at the University of Chicago He is a member of the Mont Pelerin Society served as defense minister of Italy from 2001 to 2006 and was professor of economics at the University of Rome until 2002

IJTM ,1988 To Have Possessions Floyd W. Rudmin,1991 **The Social Bond: Antecedents of the social bond** Werner Stark,1976 **A London Bibliography of the Social Sciences** ,1973 Vols 1 4 include material to June 1 1929 **Humiliation** William Ian Miller,1993 A brilliant sometimes unsettling look at how ancient codes of honor figure in the social discomforts of everyday life **Antecedents of the Social Bond: The ontogeny of sociality** Werner Stark,1978 **Mainstream** ,1990 *Proceedings and Addresses of the American Philosophical Association* American Philosophical Association,2001 List of members in v 1 **Handbook of Mental Control** Daniel M. Wegner,James W. Pennebaker,1993 For the first time this volume brings together the research and theories of psychologists whose work explores the processes and strategies that are involved when people attempt to control their own thoughts moods and behavior It covers the multiple dimensions of mental control its causes consequences and components and draws on current research within social personality cognitive developmental and clinical psychology For professionals in the field of behavior analysis Journal of Anthropological Research ,1973 **The Tyranny of Malice** Joseph H.

Berke,1989-10
