But how do news numbers and public opinion interact with each other and with what impacts on society at large. Featuring an international roster of established and emerging scholars this book is the first comprehensive collection of research into the little understood processes underpinning the uses misuses of statistical information in journalism and their socio psychological and political effects. Moving beyond the hype around data journalism News Numbers and Public Opinion delves into a range of more latent fundamental questions such as Is it true that most citizens and journalists do not have the necessary skills and resources to critically process and assess numbers. How do journalists make sense of the increasingly data driven world. What strategies formats and frames do journalists use to gather and represent different types of statistical data in their stories. What are the socio psychological and political effects of such data gathering and representation routines formats and frames on the way people acquire knowledge and form attitudes. What skills and resources do journalists and publics need to deal effectively with the influx of numbers into in daily work and life and how can newsrooms and journalism schools meet that need. The book is a must read for not only journalists journalism and media scholars statisticians and data scientists but also anybody interested in the interplay between journalism statistics and society.
