Facebook Security Breach. Security Risk Analysis and Recommendation Oluwagbenga Afolabi,2018-06-01 Seminar paper from the year 2018 in the subject Communications Multimedia Internet New Technologies grade 100.00 Saint Leo University language English abstract Facebook has revolutionized the way people End users communicate with peers and close relatives these users share personal information with Facebook The platform in turn uses these users information to match them with other users who share similarities in information through algorithms The primary focus of this paper is on the security implications of users sharing their personal information on Facebook Additionally we will examine the recent data security breach on Facebook involving Cambridge analytical and its implication for Facebook and other data mining entities The analysis will examine the loophole exploited by third party apps to gain elevated access to users and sub user data We also want to establish if Facebook is taken appropriate steps to safeguard user information by following the federal trade commission guidelines in protecting user information [The Study of Data Mining Approach Implements on Facebook Live Streaming Business Model Development](#) Pimchanok Puttong,2019 *Usage Rates, Facebook Likes, and Online Piracy* Hannes Datta,2014 The rapid digitization of the entertainment industry urges managers to find new ways to improve marketing effectiveness and combat online piracy Smart devices and innovative online services generate brand related tracking data that reflect consumers brand engagement e.g digital usage rates Facebook Likes yet managers are unaware of how to use these big data to improve brand performance We therefore propose a model to assess how digitally tracked engagement behaviors namely consumer brand usage CBU measured by digital usage rates and consumer brand endorsement CBE measured by Facebook Likes drive the impact of promotion and new product releases and affect the role of piracy We apply our framework to the U.S music industry and develop web scrapers and API mining scripts to collect data for 569 music artists over 66 weeks Both CBU and CBE enhance marketing effectiveness and positively mediate the sales impact of piracy thereby offsetting piracy's cannibalization effect by 55% However CBU exerts a systematically stronger influence in these relationships than CBE Using simulations we show how our findings can help managers to improve the allocation of

their marketing efforts across brands and reduce the detrimental sales impact of piracy
