Achieving Coherence in District Improvement Susan Moore Johnson, Geoff Marietta, Monica C. Higgins, Karen L. Mapp, Allen S. Grossman, 2014-06-01 Achieving Coherence in District Improvement focuses on a problem of practice faced by educational leaders across the nation how to effectively manage the relationship between the central office and schools The book is based on a study of five large urban districts that have demonstrated improvement in student achievement The authors all members of Harvard University's Public Education Leadership Project PELP argue that there is no one best way to structure the central office school relationship Instead they say what matters is whether district leaders effectively select and implement their strategy by achieving coherence among key elements and actors the district's environment resources systems structures stakeholders and culture The authors examine the five districts approaches in detail and point to a number of important findings First they emphasize that a clear shared understanding of decision rights in key areas academic programming budgeting and staffing is essential to developing an effective central office school relationship Second they stress the importance of building mutually supportive and trusting relationships between district leaders and

principals Third they highlight the ways that culture and the external environment influence the relationship between the central office and schools Each chapter also provides relevant Lessons for Practice actionable takeaways that educational leaders from any district can use successfully to improve the central office school relationship

**Transform Your Math Class Using Asset-Based Teaching for Grades 6-12** Michael D. Steele, Joleigh Honey, 2024-07-19 Foster a love of mathematics by creating a more inclusive and empowering learning environment through asset based teaching An asset based perspective on math education means starting with what students already know instead of focusing on what s missing This approach elevates student thinking and reasoning skills In this way educators acknowledge that all students bring prior experiences strengths talents and resources to the learning process and can contribute meaningfully in an authentic learning environment Transform Your Math Class Using Asset Based Teaching for Grades 6 12 provides insight into asset based perspectives in mathematics education to create an environment where all students feel valued and capable of being doers of mathematics In the book Michael Steele and Joleigh Honey highlight the importance of using language instructional routines and systemic structure that positively impact student engagement their math identity and ultimately their outcomes Providing a wealth of knowledge and practical strategies that can be used to transform math classrooms into inclusive supportive and empowering learning environments this book Introduces an asset based perspective that focuses on students strengths assets and potential to learn mathematics Includes a variety of frameworks and tools that teachers can use to build and grow their sense of asset based perspectives Offers strategies for promoting a growth mindset in mathematics encouraging productive struggle in math and promoting equitable math instruction Supports teachers in reflecting on their decisions self awareness and self management Includes a companion online study guide to support teachers individually or as part of a professional learning community Adopting asset based perspectives is about movement over time not about flipping a switch This book paves the path for an asset based journey that ultimately helps to transform our math classrooms and advance all students learning and development

Digital Learning for All, Now Jonathan P. Costa, Sr., 2012-03-01 Designing the practically paperless classroom Instead of carrying bulging backpacks imagine students carrying mobile devices that allow them to access information from anywhere at any time How do we transition from print to digital learning in the midst of economic challenges This breakthrough guide shows educators how to affordably make the shift to one to one computing and transform schools into digital learning centers Jonathan P Costa Sr outlines a step by step road map of solutions for overcoming budget and systems barriers and moving forward with a sense of urgency His field tested strategies show how to Acquire and pay for necessary equipment Save money by utilizing open source crowd sourcing and Bring Your Own Device Align instruction assessment curriculum and professional development for a 21st century learning environment A content rich companion website provides adaptable tools step by step guidance resources and access to an online interactive community Digital Learning for All Now will help educators make digital learning a reality on a districtwide scale that is
