Code-switching Rebecca S. Wheeler,Rachel Swords,2006 Wheeler and Swords show K 6 teachers how to use code  
switching and contrastive analysis to help students use prior knowledge to translate vernacular English into Standard  
English When African American students write or say Mama jeep is out of gas or The Earth revolve around the sun many  
teachers labeling this usage poor English or bad grammar assume that their students have problems with possession or don t  
know how to make subjects and verbs agree Forty years of linguistic research however demonstrates that the student is not  
making errors in Standard English the child is writing or speaking correctly in the language patterns of the home and of the  
community Building on the linguistic knowledge that children bring to school becomes the focus of this book which advocates  
the use of code switching to enable students to add another linguistic code Standard English to their linguistic toolbox Rather  
than drill the idea of Standard English into students by labeling their home language as wrong the authors recommend  
teaching students to recognize the grammatical differences between home speech and school speech so that they are then  
able to choose the language style most appropriate to the time place audience and communicative purpose University  
researcher Rebecca Wheeler and urban elementary teacher Rachel Swords offer a practical hands on guide to code switching  
providing teachers with step by step instructions and numerous code switching charts that can be reproduced for classroom  
use The success of Wheeler s presentations in urban school districts and the positive results that Swords has observed in her  
own classroom speak to the effectiveness of the research and of this approach While the book focuses on language use in the  
elementary classroom the procedures and materials introduced can be easily adapted for middle and high school students
