Duclos,2013-12 After living more than twenty years in the dreary Pacific Northwest climate my friend Carol and I headed to the Caymans This trip proved to be different than any other as it marked the start of a new phase of my life underwater With pristine water beautiful fish and intricate coral at my fingertips I officially caught the scuba diving bug As I reveled in the glorious undersea world and one dive turned into several hundred I had no idea that my relatively calm life would soon be tossed upside down while on a trip to Kona Hawaii The excursion began so innocently I spotted an unusual rock during a dive in Kona stuck it in my pocket and forgot about it until we returned home Suddenly strange events began to occur as I handled my special rock and shared it with others Perplexed I began researching the rock not knowing that very soon Carol and I would be running for our lives pursued by higher ups at a large pharmaceutical company who wanted what we had and were willing to do everything in their power to acquire it This fast paced deep sea adventure shares the story of an intriguing find from Hawaiian waters and how it changed my life forever
