Young, 2024-06-04 On August 1 1966 the United States and the rest of the world witnessed a mass shooting at the University of Texas at Austin that is still considered one of the most shocking and impactful mass murders in that country's recent history Charles Joseph Whitman was a twenty five year old married student and ex Marine who truly went ballistic on that day Sniping from the domineering UT Tower he killed or wounded more than forty victims before being shot and killed by police As a former Marine and excellent marksman Whitman had extensive experience with firearms but had no history of criminal activity or mental illness The shooting spree therefore left many scrambling for answers A clue emerged from Whitman's suicide note In it he said that he knew something was wrong with himself and requested that an autopsy be performed after his death A malignant tumour was found deep in his brain which ignited a fierce debate amongst medical
