 This edited book brings together a diverse range of chapters on space related topics The authors included in this book are  
 drawn from Australia and overseas from academia government industry civil society and the military This book contains  
 chapters that cover topics such as law science archaeology defence policy and more all with a focus on space This edited  
 collection is a timely international and interdisciplinary book which addresses some of the contemporary issues facing  
 activities in space and those attempting to understand use and regulate the space domain This edited book seeks to  
 normalise the role of women as experts in the space sector by not calling attention to the fact that all the authors are women  
 they are all experts in their respective fields who just happen to be women Bringing together these contributions in this book  
 in turn promotes the inclusion of diversity in the space sector This edited collection is an opportunity to influence the  
 development of the space industry in terms of gender diversity and diversity of disciplines and thinking while it is in its  
 formative stage rather than trying to redress imbalances once they are entrenched in the industry      **Happiness is the**  
**Wrong Metric** Amitai Etzioni, 2018-01-08 This book is open access under a CC BY 4.0 license This timely book addresses the  
 conflict between globalism and nationalism It provides a liberal communitarian response to the rise of populism occurring in  
 many democracies The book highlights the role of communities next to that of the state and the market It spells out the  
 policy implications of liberal communitarianism for privacy freedom of the press and much else In a persuasive argument that  
 speaks to politics today from Europe to the United States to Australia the author offers a compelling vision of hope Above all  
 the book offers a framework for dealing with moral challenges people face as they seek happiness but also to live up to their  
 responsibilities to others and the common good At a time when even our most basic values are up for question in policy  
 debates riddled with populist manipulation Amitai Etzioni's bold book creates a new frame which introduces morals and

values back into applied policy questions These questions span the challenges of jobless growth to the unanswered questions posed by the role of artificial intelligence in a wide range of daily life tasks and decisions While not all readers will agree with the communitarian solutions that he proposes many will welcome an approach that is at its core inclusive and accepting of the increasingly global nature of all societies at the same time It is a must read for all readers concerned about the future of Western liberal democracy Carol Graham Leo Pasvolsky Senior Fellow The Brookings Institution and College Park Professor University of Maryland In characteristically lively engaging and provocative style Etzioni tackles many of the great public policy dilemmas that afflict us today Arguing that we are trapped into a spiral of slavish consumerism he proposes a form of liberal communitarian that he suggests will allow human beings to flourish in changing circumstances Jonathan Wolff Blavatnik Chair of Public Policy Blavatnik School of Government University of Oxford *Alt-America* David

Neiwert,2017-10-17 This important piece of investigative reportage studies the roots of right wing extremism in American culture and history to understand its modern day resurgence in the Trump era Just as Donald Trump s victorious campaign for the U S presidency shocked the world the seemingly sudden national prominence of white supremacists xenophobes militia leaders and mysterious alt right figures mystifies many But the American extreme right has been growing steadily in number and influence since the 1990s with the rise of patriot militias Following 9 11 conspiracy theorists found fresh life and in virulent reaction to the first black U S president militant racists have come out of the woodwork Nurtured by a powerful right wing media sector in radio TV and online the far right Tea Party movement conservatives and Republican activists found common ground Figures such as Stephen Bannon Milo Yiannopoulos and Alex Jones once rightly dismissed as cranks now haunt the reports of mainstream journalism Investigative reporter David Neiwert has been tracking extremists for more than two decades In *Alt America* he provides a deeply researched and authoritative report on the growth of fascism and far right terrorism the violence of which in the last decade has surpassed anything inspired by Islamist or other ideologies in the United States The product of years of reportage and including the most in depth investigation of Trump s ties to the far right this is a crucial book about one of the most disturbing aspects of American society [Property Rights in Outer Space](#)

Matthew Johnson,2024-05-28 This book explores the role of private mining rights in the utopian imaginary of space colonisation It presents a transdisciplinary account of the new and evolving legislative frameworks that have been established in anticipation of commercial exploitation of the mineral resources of the off world frontier Written in an engaging style the book investigates a novel case study in the history of capitalism and the commons the emergence of a nascent space mining industry undergirded by a contentious legislative framework In 2015 the US passed laws that would recognise the claims of US corporations to own and sell space resources This unilateral act of pre emptive law making would appear to contravene the terms of the UN Outer Space Treaty 1967 which declared that the exploration and use of outer space should be for the benefit of all mankind and not subject to national appropriation Using this central dynamic between

privately held mining rights and outer space as a global commons Matthew Johnson constructs an historical sociology of space mining from the deep historical roots of common and private property to the contemporary networks of neoliberalism that have engaged with the commercialisation of space activity The anticipatory expansion of private property claims beyond the Earth both resonates with and problematises the terrain of political history such as the tensions between states and markets public law and private power the commons and exclusive property The emerging cosmopolitics of off world private property mirrors and is often explicitly embedded within neoliberal geopolitics prompting urgent questions about how we can reaffirm principles of democracy and common heritage in the international laws of Earth and space This book is compelling reading for anyone interested in the social study of space law economics technology politics and property rights *Future Law* Edwards Lilian Edwards,2020-03-02 How will law regulation and ethics govern a future of fast changing technologies Bringing together cutting edge authors from academia legal practice and the technology industry Future Law explores and leverages the power of human imagination in understanding critiquing and improving the legal responses to technological change It focuses on the practical difficulties of applying law policy and ethical structures to emergent technologies both now and in the future It covers crucial current issues such as big data ethics ubiquitous surveillance and the Internet of Things and disruptive technologies such as autonomous vehicles DIY genetics and robot agents By using examples from popular culture such as books films TV and Instagram including Black Mirror Disney Princesses Star Wars Doctor Who and Rick and Morty it brings hypothetical examples to life And it asks where law might go next and to regulate new phase technology such as artificial intelligence smart homes and automated emotion recognition A Compendium of the Law of Real and Personal

Property Primarily Connected with Conveyancing Josiah William Smith,1884 **Humane Health Care for Prisoners** Kenneth L. Faiver,2017-05-05 A useful research resource and handy reference this book discusses the many important ethical and legal issues that arise in the delivery of health care to prisoners at correctional facilities It references national standards of professional practice as well as the advice of recognized experts The mission of corrections is the care and custody of prisoners with a view to public safety within a place dedicated to punishment while the mission of the medical and mental health professionals in a corrections facility is to care for the health and well being of the prisoners Both have a duty to provide care but their differing roles and objectives give rise to ethical role conflict and disagreement regarding appropriate care strategies Humane Health Care for Prisoners considers important ethical and legal issues that arise in the delivery of health care to prisoners covering topics such as privacy confidentiality informed consent extended isolation and solitary confinement use of mace strip searches and body cavity searches and medical experimentation on prisoners as human subjects It also considers participation by health care professionals in capital punishment coerced substance abuse treatment how much health care to provide organizational structure and hierarchy cooperation between correctional and health care staff and the importance of recognizing mental illness as a chronic condition This book is informative for

professionals working in corrections facilities such as physicians psychiatrists psychologists nurses wardens jail administrators sheriffs and corrections officials as well as legislators and decision makers attorneys involved in correctional healthcare lawsuits students of criminal justice and those seeking to work in the field of correctional health care or in corrections Additionally students and professors of medical ethics will find this book helpful in illustrating real life topics for research and discussion *A Compendium of the Law of Real and Personal Property* Josiah William Smith, 1877 **Index to the Laws of California, 1850-1893**, 1894 **Index to the Laws of California, 1850-1893, Including the Statutes, the State Edition of the Codes, 1872, and Subsequent Amendments, and the Constitution of 1879** California, 1894

promotion of a more competitive economy The authors show that this movement is coherent with a more intensive use of patents but also one that is more focused on their signal function than on their function of direct monetary incentive to innovation

**Dust Off the Gold Medal** Sara L. Schwebel, Jocelyn Van Tuyl, 2021-08-23 The oldest and most prestigious children's literature award the Newbery Medal has since 1922 been granted annually by the American Library Association to the children's book it deems most distinguished Medal books enjoy an outsized influence on American children's literature figuring perennially on publishers lists on library and bookstore shelves and in school curricula As such they offer a compelling window into the history of US children's literature and publishing as well as into changing societal attitudes about which books are best for America's schoolchildren Yet literary scholars have disproportionately ignored the Medal winners in their research This volume provides a critically and historically grounded scholarly analysis of representative but understudied Newbery Medal books from the 1920s through the 2010s interrogating the disjunction between the books omnipresence and influence on the one hand and the critical silence surrounding them on the other Dust Off the Gold Medal makes a case for closing these scholarly gaps by revealing neglected texts insights into the politics of children's literature prizing and by demonstrating how neglected titles illuminate critical debates currently central to the field of children's literature In particular the essays shed light on the hidden elements of diversity apparent in the neglected Newbery canon while illustrating how the books respond sometimes in quite subtle ways to contemporaneous concerns around race class gender disability nationalism and globalism
