**Art of Global Peacebuilding and Excellence in Education** Angie Kotler, Jo Westbrook, 2025-03-31 This seminal volume juxtaposes and interrogates established definitions of peacebuilding and excellence in diverse education settings including in conflict and assesses how they might work together in international educational contexts. Showcasing in depth case studies from Rwanda, Ethiopia, Liberia and the UK, chapters tackle issues of global significance such as identity, conflict, decolonisation and climate justice, fusing empirical research outcomes with practical examples. Each chapter argues for the central role of peacebuilding in defining excellence in education, demonstrating context specific cognitive, affective and relational strands of learning and teaching. Ultimately challenging contemporary thinking and educational theory in an accessible practitioner focused way, this book demonstrates how imaginative and reflective practice in diverse contexts can lead to the educational transformation required for the world's current and future challenges.
