Cohn, Hilary E. Kahn, 2021-05-11

International Education at the Crossroads captures the essence and complexity of international education in an interconnected and globalized world Written by leading scholars international educators and policy makers the 26 essays in this volume take stock of the unpredictable landscape of international education and demonstrate why international higher education is more essential now than ever before Responding to a timely global moment where education and international engagement are being redefined and practiced in new ways the authors call for a reconsideration of paradigms and critical reflection of the entire field of international education At the same time the authors show how international education is an imperative for the future of learning and the world and also crucially that this work cannot be done in a silo International Education at the Crossroads offers readers a chance to join in the conversation that is as global as it is meaningful in communities the lives of learners and institutions around the world International education requires that everyone the world over work together to produce new knowledge to navigate the crossroads and to collectively chart the directions in which the field will move into the future **Index of College Majors**, 1990 **Strategies to Improve Cardiac Arrest Survival** Institute of Medicine, Board on Health Sciences Policy, Committee on the Treatment of Cardiac Arrest: Current Status and Future Directions, 2015-09-29

Cardiac arrest can strike a seemingly healthy individual of any age race ethnicity or gender at any time in any location often without warning Cardiac arrest is the third leading cause of death in the United States following cancer and heart disease Four out of five cardiac arrests occur in the home and more than 90 percent of individuals with cardiac arrest die before reaching the hospital First and foremost cardiac arrest treatment is a community issue local resources and personnel must provide appropriate high quality care to save the life of a community member Time between onset of arrest and provision of care is fundamental and shortening this time is one of the best ways to reduce the risk of death and disability from cardiac arrest Specific actions can be implemented now to decrease this time and recent advances in science could lead to new discoveries in the causes of and treatments for cardiac arrest However specific barriers must first be addressed Strategies to Improve Cardiac Arrest Survival examines the complete system of response to cardiac arrest in the United States and identifies opportunities within existing and new treatments

strategies and research that promise to improve the survival and recovery of patients The recommendations of Strategies to Improve Cardiac Arrest Survival provide high priority actions to advance the field as a whole This report will help citizens government agencies and private industry to improve health outcomes from sudden cardiac arrest across the United States
