Gaps and the

Creation of Ideas Judith Seligson,2021-03-08 Gaps and the Creation of Ideas An Artist s Book is a portrait of the space between things whether they be neurons quotations comic book frames or fragments in a collage This twenty year project is

an artist's book that juxtaposes quotations and images from hundreds of artists and writers with the author's own thoughts. Using Adobe InDesign for composition and layout the author has structured the book to show analogies among disparate texts and images. There have always been gaps but a focus on the space between things is virtually synonymous with modernity. Often characterized as a break modernity is a story of gaps. Around 1900 many independent strands of gap thought and experience interacted and interwove more intricately. Atoms, textiles, theories, women, Jews, collage, poetry, patchwork and music figure prominently in these strands. The gap is a ubiquitous phenomenon that crosses the boundaries of neuroscience, rabbinic thinking, modern literary criticism, art, popular culture and the structure of matter. This book explores many subjects but it is ultimately a work of art.

Moniz's request and provides a comprehensive study that considers research and technology opportunities to enable prudent development of U.S. Arctic offshore oil and natural gas resources.
