## **Agricultural Science Paper One Scope 2014:**

Emerging Trends in Agri-nanotechnology Harikesh Bahadur Singh, Sandhya Mishra, Leonardo Fernandes Fraceto, Renata de Lima, 2018-04-27 The science of nanotechnology the manipulation design and engineering of devices at the atomic and molecular scale is starting to be applied to many disciplines including aspects of agriculture and crop science This book opens with a brief history of nanotechnology in agriculture Applications are then examined in detail including nanopesticides nanosensors nanofertilizers and nanoherbicides Topics covered include the biosynthesis of nanoparticles through microbes plants and other biotic agents the ecological consequences of their delivery into the environment examining effects and toxicity on soil soil biota and plants safety issues an overview of the global market for nanotechnology products and the regulation of nanotechnology in agriculture The book concludes with speculations on what the future holds for the technology The book has been written by an international group of researchers and experts from over 12 countries with experience across a wide range of issues relating to the industry This book will be of use to a wide range of researchers and professional scientists in the agricultural sector academia and industry including microbiologists chemical engineers geneticists plant scientists and biochemists

**Nanofertilizers for Sustainable Agriculture** Pankaj Kumar, Ramesh Chandra Dubey, 2025-02-20 This book covers the use and impacts of nanofertilizers from a sustainable agriculture perspective and together with its companion book Nanofertilizers in Agriculture Synthesis Mechanisms and Effect on Plants serves as an indispensable resource for researchers agronomists and policymakers exploring sustainable agriculture with nanotechnology Divided into 4 main sections the book begins with a critical overview of the impact of nanofertilizers on the ecosystem their toxicity and implications on the protection of the environment followed by a section devoted to the use of nanoparticles for disease management Subsequent sections offer a perspective of nanofertilizers in soil and water health and economical analysis In this book readers will find chapters covering topics such as the toxicity of nano fertilizers due to overuse their role in controlling soil borne fungal pathogens and their potential for safe and sustainable agriculture with a focus on organic farming Readers will also gain insights into nanotechnology applications for plant pathogen detection viral disease management and nematode disease control The authors present an expert analysis of the impact of nano fertilizers on soil properties crop productivity groundwater and soilless agricultural systems This book is particularly valuable for researchers in agricultural science and it is also relevant for environmental scientists interested in sustainable practices and nanotechnologists exploring agricultural applications Practitioners such as farmers and agronomists will find practical insights for integrating nanotechnology into their work This volume is a must read for anyone invested in the future of sustainable agriculture

**Agricultural Sustainability through Nanotechnology** Mary Theresa, Ashitha Jose, Jyotishkumar Parameswaranpillai, Radhakrishnan E K, 2025-01-31 Agricultural Sustainability through Nanotechnology focuses on the innovative intersection of agriculture and nanotechnology offering a comprehensive exploration of how

nanotechnological applications are revolutionizing sustainable farming practices. This book is a pioneering work that not only elucidates the immense potential of nanotechnology in agriculture but also provides practical insights into its implementation for enhanced sustainability. With a focus on addressing pressing agricultural challenges, this book sets itself apart by bridging the gap between cutting edge nanotechnology research and its real world applications in sustainable agriculture for better productivity. Readers will discover a wealth of knowledge on how nanotechnology can optimize crop production, mitigate environmental impacts and improve resource efficiency in farming practices. This book is essential reading for researchers, academics and professionals in the fields of agriculture, nanotechnology and environmental science. It serves as a valuable resource for readers seeking to understand and harness the momentum of nanotechnology for sustainable agricultural practices.

*Organised Retailing and Agri-Business* N. Chandrasekhara Rao, R. Radhakrishna, Ram Kumar Mishra, Venkata Reddy Kata, 2015-10-07. This book examines the performance of organized retail chains supplying the agri input and output services in terms of achieving their objective of utilising collective bargaining power in the marketing of their agricultural produce integrating empirical experience from India and other selected developing countries. The scenario of marketing for agricultural products has been undergoing rapid changes with the rise of organised retailing the Indian term for supermarkets a process that is likely to accelerate in years to come with India being on the threshold of a supermarket revolution. In fact India is referred to as the final frontier in the development of supermarkets. The growth of supermarkets in India is faster than that in China which is also witnessing an exponential growth as part of the third wave of supermarket diffusion. The book investigates the links between organised retailing and farmers and farming in India. Apart from raising issues of equity inclusion and problems in policy framework it also discusses policy interventions that are essential in order to make the development of organised retailing more inclusive and beneficial to the farming community and agricultural sector. The book further serves as a guide for policy makers helping them to select the right kind of interventions to balance growth with equity as market forces penetrate deeper into the agricultural marketing space.
