Abstract— The main aim of this paper is to develop an accurate, fast and very efficient automatic attendance system using fingerprint verification technique. We propose a system in which fingerprint verification is done by using extraction of minutiae technique and the system that automates the whole process of taking attendance. Manually which is a laborious and troublesome work and waste a lot of time, with its managing and maintaining the records for a period of time is also a burdensome task. For this purpose we use fingerprint verification system using extraction of minutiae techniques. The experimental result shows that our proposed system is highly efficient in verification of user fingerprint.

Keywords—fingerprint verification; image processing; minutiae matching; segmentation

I. INTRODUCTION

In many institutions and organization the attendance is a very important factor for various purposes and its one of the important criteria that is to follow for students and organization employees. The previous approach in which manually taking and maintains the attendance records was very inconvenient task. After having these issues in mind we develop an automatic attendance system which automates the whole process of taking attendance and maintaining it.

We already know about some commonly used biometric techniques are used for objective identification and verification are like iris recognition, voice identification, facial recognition, fingerprint identification, DNA recognition, hand geometry recognition, signature recognition, and gait recognition [1]. Biometrics techniques are widely used in various areas like building security, forensic science, ATM, criminal identification and passport control [2]. In our proposed automatic attendance system we uses fingerprint recognition technique [3, 4] for obtaining the attendance. The fingerprint recognition is widely used for many other purposes and it is widely popular technique [5]. Fingerprint verification is very convenient and reliable way to verify the person's identity. It is believed that no two people have identical fingerprint in this world, so the fingerprint verification and identification is most popular way to verify the authenticity or identity of a person whenever the security is a problematic question. The reason for popularity of fingerprint technique is uniqueness of person arises from his behavior; personal characteristics are like, for instance uniqueness, which indicates that each and every

fingerprint is unique, different from one other. Universality, that means every person hold the individual characteristics of fingerprint. Permanence, means that fingerprint are permanent, are impossible to change or forgot, and can never be stolen. Collectability means that we can measure fingerprint quantitatively [6].

In present scenario, the various uses of fingerprint verification are widespread like authentication to login machine and others but still majorly for law enforcement applications. There are a lot of expectations that the use of fingerprint recognition will increase which is dependent of some factor involved like small fingerprint capturing devices, fast computing hardware, and awareness on easy to use methods for security [3]. This paper cover the topics on fingerprint verification, algorithm and our proposed system, the details of pre-processing of fingerprint image including enhancement, binarization, segmentation, extracting minutiae from image, post processing and matching, experiment and its result.

A. Fingerprint Recognition

The Fingerprint is the feature pattern of one finger or an impression of friction ridges found on inner surface of finger as shown in figure 1(a). Everyone in this world has his own fingerprint with the permanent uniqueness. A fingerprint is made up of ridges and furrows, which shows good similarities like parallelism and average width [6]. However the research conducting on fingerprint verification and identification shows that we can distinguish fingerprint with the help of minutiae, which are the some abnormal points on the ridges. There are two type of the termination of minutiae, immediate ending of ridges or a point where ridge ends abruptly called ending or termination and the point on the ridge from which other branch drives or a point from where ridge splits into two or more branches is known as bifurcation as shown in figure 1(b).

B. Proposed System

Figure 2 shows our proposed automatic attendance system using Fingerprint verification technique. A fingerprint is captured by user interface, which are likely to be an optical, solid state or an ultrasound sensor. Generally, there are two approaches are used for fingerprint verification system among them first one is Minutiae based technique, in which minutiae is represented by ending or termination and bifurcations. Other one is Image based method or matching pattern, which take

Unveiling the Energy of Verbal Art: An Emotional Sojourn through **An Efficient Automatic Attendance System Using Fingerprint**

In a global inundated with monitors and the cacophony of immediate interaction, the profound power and emotional resonance of verbal art usually fade into obscurity, eclipsed by the regular onslaught of sound and distractions. Yet, nestled within the musical pages of **An Efficient Automatic Attendance System Using Fingerprint**, a charming work of fictional splendor that impulses with organic feelings, lies an unique journey waiting to be embarked upon. Published with a virtuoso wordsmith, this exciting opus guides readers on an emotional odyssey, softly revealing the latent possible and profound influence embedded within the elaborate web of language. Within the heart-wrenching expanse of this evocative examination, we can embark upon an introspective exploration of the book is key styles, dissect its interesting writing model, and immerse ourselves in the indelible impact it leaves upon the depths of readers souls.

An Efficient Automatic Attendance System Using Fingerprint Introduction

In today's digital age, the availability of An Efficient Automatic Attendance System Using Fingerprint books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of An Efficient Automatic Attendance System Using Fingerprint books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of An Efficient Automatic Attendance System Using Fingerprint books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing An Efficient Automatic Attendance System Using Fingerprint versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, An Efficient Automatic Attendance System Using Fingerprint books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing An Efficient Automatic Attendance System Using Fingerprint books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain,

meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for An Efficient Automatic Attendance System Using Fingerprint books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, An Efficient Automatic Attendance System Using Fingerprint books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of An Efficient Automatic Attendance System Using Fingerprint books and manuals for download and embark on your journey of knowledge?

FAQs About An Efficient Automatic Attendance System Using Fingerprint Books

What is a An Efficient Automatic Attendance System Using Fingerprint PDF? A PDF (Portable Document Format) is a file format developed by Adobe that preserves the layout and formatting of a document, regardless of the software, hardware, or operating system used to view or print it. **How do I create a An Efficient Automatic Attendance System Using Fingerprint PDF?** There are several ways to create a PDF: Use software like Adobe Acrobat, Microsoft Word, or Google Docs, which often have built-in PDF creation tools. Print to PDF: Many applications and operating systems have a "Print to PDF" option that allows you to save a document as a PDF file instead of printing it on paper. Online converters: There are various online tools that can convert different file types to PDF. **How do I edit a An Efficient Automatic Attendance System Using Fingerprint PDF?** Editing a PDF can be done with software like Adobe Acrobat, which allows direct editing of text, images, and other elements within the PDF. Some free tools, like PDFescape or Smallpdf, also offer basic editing capabilities. **How do I convert a An Efficient Automatic Attendance System Using Fingerprint PDF to**
