

# HOW TO BUILD CREDIT WITH A SECURED CREDIT CARD

## 1. Choose the right secured credit card.

Consider fees, which bureaus the issuer reports to and minimum deposit required.

## 2. Pay the deposit.

The deposit acts as collateral. If you make all of your payments, you get it back when you close your card.

## 3. Make on-time payments.

Your payment history accounts for 35% of your FICO® score. Missing a payment can negatively affect your credit score.

## 4. Keep your credit utilization ratio low.

Your credit utilization ratio (CUR) is your total revolving debt divided by your total revolving credit limit. Experts recommend keeping your CUR below 30%, though closer to 10% is ideal for building credit.

## 5. Monitor your credit score and activity.

Ensure your payments are accurately reported to the major three credit bureaus (Experian, Equifax and TransUnion).

## 6. Upgrade to an unsecured credit card.

After several months of on-time payment history, some credit card companies may upgrade you to an unsecured credit card or a partially unsecured line increase. This may increase your credit limit and lower your total credit utilization ratio.
