**Why Regional Tier Form of Decentralization Governance's Implementation Is a Preliquist for Uganda's Better Service Delivery of 21st Century** Deo Rwangoga, The book looks at Decentralization governance of president Museveni era that was registered in Uganda of the local government status 1987 resistance councils status 1993 as well as into the 1995 constitution operationalized by the local government act 1997 that devolved legislative fiscal planning budgeting functions to districts Municipal councils as well as their lower tier levels whose idea was to involve the people in a way they were governed the dream that have not been achieved looking at what the cries of people are as expressed in all sectors This book analyses Decentralization from 1997 to 2019 and deduces that the first phrase of it 10 years that is up to 2005 was a success that time the district were 69 in number but beyond that time it was not at all and up to now as it is continuously becoming harder to manage those very many administrative units that jumped from just 39 districts in 1991 to 134 Districts in 2020 as well as municipalities created alongside districts that now stand at 41 2018 all contributing to formation of a Member of Parliament that total to 459 MPs 2018 All this has led Uganda to have a very poor governance system as even primary sectors of health education agriculture and economy are in a dilemma state leave alone local revenue collections that are directed from source to Centre before expenditure and the districts have to request back to do any activity including emergencies like garbage management repairs and salaries making services delivery impossible to be efficient and effective in all ways at these levels The book is based on secondary data that reported on governance issues of the day as written in Ugandan media that were people s feelings as issues of the time as well some Journals observations and interviews The book introduces decentralization governance of Uganda identifies current state of affairs of service delivery presents why there was need for many new administrative units and their state now looks at history of parliament feudalism identifies lost pride of Ugandans

proposes what regional tier governance can address as well as linking the past with today's Ugandan governance. Finally, the book proposes prerequisite regional tier power centres relevant to today's Uganda and concludes with models that can help us achieve vision 2040 and therefore proposes immediate need to implement regional tier governance that will establish all three arms of government at regional centres of Uganda. It was agreed to be implemented by those that deemed it under article 178(3). It is apparent that all regions should therefore implement it as a solution to service delivery that is very poor now.

**Peacebuilding in Africa** Kelechi A. Kalu, George Klay Kieh Jr., 2021-08-18 *Peacebuilding in Africa: The Post Conflict State and Its Multidimensional Crises* argues that building enduring peace in post conflict states in Africa requires comprehensive state specific approaches that address the multidimensional crises that generated civil conflict and instabilities in these countries. Contributors examine states such as Burundi, the Democratic Republic of the Congo, Liberia, Rwanda, Sierra Leone, South Sudan and Sudan to demonstrate that peacebuilding projects in each of these states must address the cultural, economic, political and social root causes of their respective underlying civil conflicts. In addition, contributors prove that peacebuilding projects must be shaped by the centrality of human security, the respect for ethnic cultural diversity, the advancement of human material well-being, the protection of political rights and civil liberties and the redesigning of the military and security architecture to ensure the safety of all citizens from both internal and external threats.
