*The Oil Palm* R. H. V. Corley,P. B. H. Tinker,2008-04-15 The oil palm is the world's most valuable oil crop With palm oil production increasing by more than 50% in the last decade of the twentieth century and set to double in the next twenty years it has never before been so important to understand the history use and cultivation of this fascinating crop

There have been many new developments since the third edition of The Oil Palm in 1988 particularly in the fields of clonal propagation agronomy breeding and molecular genetics. This new edition has been completely rewritten and is the first book to record and explore these and many other developments. The book traces the origins and progress of the industry and describes the basic science underlying the physiology, breeding and nutrition of the oil palm. It covers both cutting edge research and wider issues such as genetic modification of the crop, the promise of clonal propagation and the effects of palm oil on human health. The practical problems of maximising yield of oil and kernels are discussed in relation to the present yield gap and oil extraction rate decline in Malaysia. The oil palm is also compared to the soya bean and other oil crops and the recent history of the price of oil palm products is considered in the light of this. The Oil Palm makes an essential contribution to oil palm research and will be an indispensable reference and guide for agricultural students, researchers and all those working worldwide in the oil palm industry.

Society of Foresters of Great Britain, 1970 **Introduction to Health and Safety in Construction** Phil Hughes, Ed Ferrett, 2012-09-10. This NEBOSH endorsed textbook is matched to the latest syllabus of the National Certificate in Construction Safety and Health. Within the construction industry the need for specialist health and safety training is high due to the high risks involved. This is reflected in recent legislation such as CDM 2007 and explains the consistent demand for courses and learning materials. The text is easy to read, highly illustrated in full color and supported with checklists, report forms and record sheets used currently in the industry. Students are supported with end of chapter questions, a study skills chapter and specimen assignments including specimen answers. As NEBOSH actively grows their qualifications internationally, demand for this book and its sister titles continues to increase overseas. High growth markets are the Middle East, Malaysia, India and China.
