Study Skills in Practice Deem,James Deem,1993 As he wrote the book the author was guided by three primary objectives to give students clear and explicit instructions on how to study to provide ample exercises for practicing new

techniques and to lead students to adapt these methods and apply them with flexibility to their own academic work. Consequently the book contains step by step instructions for learning a variety of study strategies and many textbook excerpts including a chapter from an American history textbook to encourage application of the study skills presented. The book shows students how to establish goals, deal with potential problems and master the skills of successful time management. It shows how to preview a textbook, how to listen and take notes in class and how to use the library for research. The text provides students with a four part reading process: preparing to read, read, understand, remember. It presents three study systems: SQ4R, textbook marking and textbook mapping. The book gives students study strategies they use before, during and after taking exams. Pref
