Adams Venture Manual:

Handbook of Qualitative Research Techniques and Analysis in Entrepreneurship Helle Neergaard, Claire M. Leitch, 2015-10-30 One of the most challenging tasks in the research design process is choosing the most appropriate data collection and analysis technique. This Handbook provides a detailed introduction to five qualitative data collection and analysis techniques pertinent to exploring entrepreneurial phenomena. Techniques for collecting and analysing data are rarely addressed in detail in published articles. In addition, the constant development of new tools and refinement of existing ones has meant that researchers often face a confusing range from which to choose. The experienced and expert group of contributors to this book provide detailed practical accounts of how to conduct research employing focus groups, critical incident technique, repertory grids, metaphors, the constant comparative method and grounded theory. This Handbook will become the starting point for any research project. Scholars new to entrepreneurship and doctoral students as well as established academics keen to extend their research scope will find this book an invaluable and timely resource.

Sheffer, 2013-01-02 In the United States miscegenation is not merely a subject of literature and popular culture. It is in many ways the foundation of contemporary imaginary community. The Romance of Race examines the role of minority women writers and reformers in the creation of our modern American multiculturalism. The national identity of the United States was transformed between 1880 and 1930 due to mass immigration, imperial expansion, the rise of Jim Crow and the beginning of the suffrage movement. A generation of women writers and reformers, particularly women of color, contributed to these debates by imagining new national narratives that put minorities at the center of American identity. Jane Addams, Pauline Hopkins, Onoto Watanna, Winnifred Eaton, Mar a, Cristina Mena and Mourning Dove, Christine Quintasket, embraced the images of the United States and increasingly the world as an interracial nuclear family. They also reframed public debates through narratives depicting interracial encounters as longstanding unacknowledged liaisons between white men and racialized women that produced an incestuous mixed race nation. By mobilizing the sexual taboos of incest and miscegenation, these women writers created political allegories of kinship and community. Through their criticisms of the nation's history of exploitation and colonization, they also imagined a more inclusive future. As Jolie A. Sheffer identifies, the contemporary
