scrutinise the concept of duty of care in the specific context of sports coaching. Sustained analysis of the developing case law allows the scope and boundaries of the particular duties demanded of coaches to be rigorously examined. The legal principles and court decisions discussed relate to coaching delivered in a wide range of individual and team sports at both amateur and professional levels of performance and include common scenarios and challenges frequently encountered by sports coaches globally. By adopting an interdisciplinary approach within a broader sociolegal methodological framework this book's detailed analysis and original insights will prove highly instructive for practising coaches, coach educators and national governing bodies of sport. It also offers extremely valuable insights for students, teachers and practitioners involved in sports law, sports coaching, sports ethics, tort law, sports policy and development, sports studies and physical education.
