## 06 November 2014 Zimsec Paper 2:

Masculinities under Neoliberalism Andrea Cornwall, Frank G. Karioris, Nancy Lindisfarne, 2016-05-15 Neoliberalism has had a radical impact on the lived gendered experiences of people around the world. But while the gendered dimensions of neoliberalism have already received significant scholarly attention, the existing literature has given little consideration to men's identities and experiences. Building on the work of Cornwall and Lindisfarne's landmark text *Dislocating Masculinity*, this collection provides a fresh perspective on gender dynamics under neoliberalism. Bringing together a series of short, readable case studies drawn from new ethnographic fieldwork, its subjects range from the experiences of working class men in Putin's Russia to colonial masculinities in Southern Rhodesia and from young British Muslim men to amateur footballers in Jamaica.

*Grid-locked African Economic Sovereignty* Warikandwa, Tapiwa Victor, Nhemachena, Artwell, 2019-02-06 The emergent so-called Fourth Industrial Revolution is regarded by some as a panacea for bringing about development to Africans. This book dismisses this flawed reasoning, surfacing how investors are actually looting and plundering Africa, how the industrial internet of things, the gig economies, digital economies, and cryptocurrencies breach African political and economic sovereignty. The book pioneers what can be called anticipatory economics, which anticipates the future of economies. It is argued that the future of Africans does not necessarily require degrowth, postgrowth, postdevelopment, postcapitalism, or sharing solidarity economies; it requires attention to age-old questions about African ownership and control of their resources. Investors have to invest in ensuring that Africans own and control their resources. Further, it is pointed out that the historical imperial structural creation of forced labour is increasingly morphing into what we call the structural creation of forced leisure, which is no less lethal for Africans. Because both the structural creation of forced labour and the structural creation of forced leisure are undergirded by transnational neo-imperial plunder, theft, robbery, looting, and dispossession of Africans, this book goes beyond the simplistic arguments that Euro-America developed due to the industrial revolutions. *Robert Mugabe* Sue Onslow, Martin Plaut, 2018-03-05 Zimbabwe's President Robert Mugabe sharply divides opinion and embodies the contradictions of his country's history and political culture. As a symbol of African liberation and a stalwart opponent of white rule, he was respected and revered by many. This heroic status contrasted sharply in the eyes of his rivals and victims with repeated cycles of gross human rights violations. Mugabe presided over the destruction of a vibrant society, capital flight, and mass emigration precipitated by the policies of his government, resulting in his demonic image in Western media. This timely biography addresses the coup led by some of Mugabe's closest associates that forced his resignation after thirty-seven years in power. Sue Onslow and Martin Plaut explain Mugabe's formative experiences as a child and young man, his role as an admired Afro-nationalist leader in the struggle against white settler rule, and his evolution into a political manipulator and survivalist. They also address the emergence of political opposition to his leadership and the uneasy period of coalition government. Ultimately, they reveal the complexity of the man who stamped his personality on Zimbabwe's first four decades.

Democracy, Elections, and Constitutionalism in Africa Charles M. Fombad, Nico Steytler, 2021-03-18 The third wave of democracy that reached African shores at the end of the Cold War brought with it a dramatic decline from 1990 onwards in dictatorships military regimes one party governments and presidents for life Multiparty democracy was at the core of the constitutional revolutions that swept through most of Africa in those watershed years However that wave is either losing momentum or receding or being reversed in its entirety This volume examines democracy and elections in Africa a focus motivated by two concerns First after 30 years it is important to take stock of the state of constitutional democracy on the continent The democratic gains of the 1990s and 2000s seem to be falling by the wayside with the evidence mounting that regimes are concealing authoritarianism under the veneer of elections doing so in an international context where populist regimes are on the rise and free and fair multiparty elections are consequently no longer a given It is becoming a battle to protect and retain constitutional democracy The second reason for this volume s focus on democracy and elections is that multiparty democracy is essential for the proper functioning of the state in addressing the major problems facing Africa

internal conflict inequality and lack of development and poor governance and corruption The focus of this volume is thus on how competitive politics or multiparty democracy can be realized and how through competition such politics could lead to better policy and practice outcomes Border Jumping and Migration Control in Southern Africa Francis

Musoni,2020-04-07 With the end of apartheid rule in South Africa and the ongoing economic crisis in Zimbabwe the border between these Southern African countries has become one of the busiest inland ports of entry in the world As border crossers wait for clearance crime violence and illegal entries have become rampant Francis Musoni observes that border jumping has become a way of life for many of those who live on both sides of the Limpopo River and he explores the reasons for this including searches for better paying jobs and access to food and clothing at affordable prices Musoni sets these actions into a framework of illegality He considers how countries have failed to secure their borders why passports are denied to travelers and how border jumping has become a phenomenon with a long history especially in Africa Musoni emphasizes cross border travelers active participation in the making of this history and how clandestine mobility has presented opportunity and creative possibilities for those who are willing to take the risk **Economic Report on Africa**
