08c Skeletal Haspi:

Classics of Men's Rights: Condensed Shaw Alphabet Edition Tim Browne, 2013-12 According to the feminist movement we're living in an oppressive patriarchy which keeps women down and benefits men. What if this story that we've been told repeatedly over the past 50 years isn't true? What if instead women have actually been part of a privileged class for centuries? In this book you'll find many examples such as the suffragettes who attempted to burn down the theatre at Dublin and were sentenced to the hard labour of knitting and the lady who walked after she murdered her husband and child then gained the mercy of the court with the claim that she was a childless widow all alone in the world. Now for the first time ever you can read about the struggle for gender equality as never before not only from the man's point of view but in 100% phonetic English. NOTE this version is almost entirely written in the Shaw Alphabet at a reduced font size and is intended for people who are already well aware of its advantages over our current spelling system. **The London Magazine, Or, Gentleman's Monthly Intelligencer**, 1769 Healthcare Financial Management, 1984 Some issues accompanied by supplements
