What came to be known as the Black Mountain School of poetry represented, in mid twentieth-century America, the crossroads of poetic innovation. The name of this poetic movement derives from Black Mountain College in North Carolina, an experimental college founded in 1933. By the time the poet and essayist Charles OLSON became its Rector in 1950, it had become a mecca for a larger artistic and intellectual avant-garde. Until it closed in 1957, the college was the seedbed for virtually all of America's later artistic innovations. A vast array of writers, painters, sculptors, dancers, composers and many other people involved in the creative arts passed through the college's doors as teachers or students.

The poets most often associated with the name *Black Mountain* are, primarily, Olson, Robert Creeley and Robert Duncan.

Today, Black Mountain poetry may seem to contain a great variety of styles and themes. Regardless, there are some common characteristics to be noticed in this poetry: the use of precise language, direct statement, often plain (even blunt) diction, and metonymy rather than metaphor or simile. These writerly tendencies evolved in reaction to earlier poetry that was strictly metered, end-rhymed, filled with aureate diction and monumental subject matter. The reaction by the Black Mountain poets was a continuation of a poetic revolution begun by the Imagists and later the Objectivists. In general, Black Mountain poets typically refrain from commenting on their personal appraisal of a scene evoked in a poem, and this strategy can even mean the avoidance of adjectives and adverbs. As Ezra Pound had pronounced early in the century (in describing the poetry of H.D.), poetry should be "laconic speech," "Objective," without "slither—direct," and containing "*No metaphors that won't permit examination.-- It's straight talk.*" Besides its alignment with Imagism and later Objectivism, Black Mountain poetry can be said to descend, especially in its embrace of individualism, from such nineteenth-century New England writers as Henry David Thoreau and particularly Ralph Waldo Emerson. As Edward Foster has written, Emerson's essay "Self-Reliance" gave the many Black Mountain poets, "despite their radical differences in personality, sensibility, and general ambitions, a common apprehension about what a poem might achieve" (xiii).

1000 Word Essay On Feudalism:

The Birth of Nobility David Crouch, 2015-10-23 For 300 years separate and mutually uncomprehending English and French historiographies have confused the history of medieval aristocracy Unpicking the basic assumptions behind both national traditions this book explains them reconciles them and offers entirely new ways to take the study of aristocracy forward in both England and France The Birth of Nobility analyses the enormous international field of publications on the subject of medieval aristocracy breaking it down into four key debates noble conduct noble lineage noble class and noble power Each issue is subjected to a thorough review by comparing current scholarship with what a vast range of historical source material actually says It identifies the points of divergence in the national traditions of each of these debates and highlights where they have been mutually incomprehensible For students studying medieval Europe

Feud, Violence and Practice Tracey L. Billado, 2016-04-15 This collection presents an innovative series of essays about the medieval culture of Feud and Violence Featuring both prominent senior and younger scholars from the United States and Europe the contributions offer various methods and points of view in their analyses All however are indebted in some way to the work of Stephen D White on legal culture politics and violence White s work has frequently emphasized the importance of careful closely focused readings of medieval sources as well as the need to take account of practice in relation to indigenous normative statements His work has thus made historians of medieval political culture keenly aware of the ways in which various rhetorical strategies could be deployed in disputes in order to gain moral or material advantage Beginning with an essay by the editors introducing the contributions and discussing their relationships to Stephen White s work to the themes of the volume to each other and to medieval and legal studies in general the remainder of the volume is divided into three thematic sections The first section contains papers whose linking themes are violence and feud the second section explores medieval legal culture and feudalism whilst the final section consists of essays that are models of the type of inquiry pioneered by White

Irish Kingship in the Eleventh and Twelfth Centuries Ronan Mulhaire, 2025-05-23 Irish Kingship in the Eleventh and Twelfth Centuries examines the power of medieval Irish kings but treats power as a complex concept worthy of study in its own right It starts from the premise that historians of medieval Ireland have interpreted power in a narrow way This book engages with the rich corpus of literature on power produced by political scientists and sociologists which reveals the sheer complexity and vicissitudes of power as a concept Where there is

power there is resistance Hence drawing on evidence from medieval Irish chronicles hagiographies saga literature and advice texts this book explores the largely ignored phenomena of revolt resistance and violence in eleventh and twelfth century Ireland It argues against a panoptic narrative of royal centralisation and suggests that the existence of a multiplicity of kings and non royal lords has proven to be more of a problem for historians than it was for the Irish kings themselves This book will appeal to scholars and students of medieval Ireland as well as those interested in the history of kingship power and resistance

Western Civilization Frank Roy Willis,1985 The Scripting of Domination in Medieval Catalonia Eugene L. Mendonsa,2008 These historical data are analyzed in light of theories of political economy agency and action theories and a general approach Mendonsa develops in a forthcoming work that analyzes how aggrandizers began to fabricate institutions of domination once property became a significant historical material condition of the Neolithic The present work looks at the manufacture of rules of domination in the more limited context of medieval Catalonia and Aragon between the eleventh and fifteenth centuries

BOOK JACKET The State in India, 1000-1700 Hermann Kulke,1995 Since the 1940s revaluations of the nature of the State have been a major preoccupation among historians worldwide There has been a debate on the extent to which the State is independent of the interests of the ruling class Pre colonial India provides a unique testing ground for such debates for it provides examples of State forms which vary enormously Yet serious consideration of the nature of State forms in India was often overwhelmed by a focus on caste and brahminism Now however as Professor Kulke demonstrates in his Introduction to this book which consists of all the major essays on this important theme several basic forms of the State can be isolated Although the notion of centralized empire still dominates the historiography alternative models such as the segmentary state and the patrimonial state have given rise to productive debates
