interactions and use language with competence to get things done By selecting dialogue journal writing as a corpus for analysis it is possible to observe children s communicative competence in using written language purposefully apart from their ability to master a particular form of writing The central argument is that dialogue journal communication represents a kind of personal literacy prior to and more comprehensive than the particular literacies emphasized and assessed in schools The contents include a practitioner s view of the practice itself and a summary of the research study methods developed to analyze interactive written conversations      **Journal of Social Science** ,1886      **Brooklyn Medical Journal** ,1889
