How to Read and Do Proofs Daniel Solow,2013-10-22 This text makes a great supplement and provides a systematic
approach for teaching undergraduate and graduate students how to read understand think about and do proofs The approach
is to categorize identify and explain at the student's level the various techniques that are used repeatedly in all proofs
regardless of the subject in which the proofs arise How to Read and Do Proofs also explains when each technique is likely to
be used based on certain key words that appear in the problem under consideration Doing so enables students to choose a
technique consciously based on the form of the problem
