

A black and white photograph showing four soldiers in World War I attire running through a field. They are wearing gas masks and carrying equipment. A large cloud of white smoke or gas is rising from the ground, partially obscuring the soldiers. The background is a flat, open field under a cloudy sky.

14 18 Understanding The Great War:

14-18, Understanding the Great War Stéphane Audoin-Rouzeau, Annette Becker, 2002 An analysis of the Great War looks deeply into the swirling quagmire of violence racism and grief stirred up by the war and traces the influence of these strong emotions on the course of European history *Heroes, Rogues, and Spies* John Craig, 2012-04 25 historical essays on various subjects including Alexander the Great Greek Trojan War Medieval Crusades The Battle of Beecher Island The Battle of Summit Springs George A Custer Edgar Allan Poe Ali Agca Lee Harvey Oswald Sirhan Sirhan James Earl Ray Adolf Hitler Claus von Stauffenberg American Sports Celebrity Spies George S Patton James Bond Ian Fleming s Black Ops Osama bin Laden Twentieth Century Terrorism Baader Meinhof Gang Japanese Red Army June 2 Movement Tamil Tigers Black September Al Qaeda and others *Objects of War* Leora Auslander, Tara Zahra, 2018-05-15 Discusses the ways in which material culture affected and reflected how people grappled with social cultural and material upheavals during times of war

Medieval Roles for Modern Times Helen Solterer, 2010-01-01 Examines the performances of a Parisian youth group Gustave Cohen s Th ophiliens and the process of making medieval culture a part of the modern world Explores the work of actor Moussa Abadi and his clandestine resistance under the Vichy regime in France during World War II Provided by publisher **The Oxford Handbook of European History, 1914-1945** Nicholas Doumanis, 2016-05-05 The period spanning the two World Wars was unquestionably the most catastrophic in Europe s history Despite such undeniably progressive developments as the radical expansion of women s suffrage and rising health standards the era was dominated by political violence and chronic instability Its symbols were Verdun Guernica and Auschwitz By the end of this dark period tens of millions of Europeans had been killed and more still had been displaced and permanently traumatized If the nineteenth century gave Europeans cause to regard the future with a sense of optimism the early twentieth century had them anticipating the destruction of civilization The fact that so many revolutions regime changes dictatorships mass killings and civil wars took place within such a compressed time frame suggests that Europe experienced a general crisis The Oxford Handbook of European History 1914 1945 reconsiders the most significant features of this calamitous age from a transnational perspective It demonstrates the degree to which national experiences were intertwined with those of other nations and how each crisis was implicated in wider regional continental and global developments Readers will find innovative and stimulating chapters on various political social and economic subjects by some of the leading scholars working on modern European history today **The Great War in Post-Memory Literature and Film** Martin Löschnigg, Marzena Sokolowska-Paryz, 2014-10-14 The twenty seven original contributions to this volume investigate the ways in which the First World War has been commemorated and represented internationally in prose fiction drama film docudrama and comics from the 1960s until the present The volume thus provides a comprehensive survey of the cultural memory of the war as reflected in various media across national cultures addressing the complex connections between the cultural post memory of the war

and its mediation In four sections the essays investigate 1 the cultural legacy of the Great War including its mythology and iconography 2 the implications of different forms and media for representing the war 3 national memories foregrounding the differences in post memory representations and interpretations of the Great War and 4 representations of the Great War within larger temporal or spatial frameworks focusing specifically on the ideological dimensions of its remembrance in historical socio political gender oriented and post colonial contexts **Social Studies and the World** Merry M.
