

Teacher	Tom Oscar Craig	Date	20 March 2019	Room	ABC
Course/topic	Hair Styling	Time	15:30	Duration	30 mins
Aim	<p>To understand the correct methods and techniques involved to create hair-styles</p> <p>To understand the various hair styles</p>				
Timing	Objectives/learning outcomes  The learner will:	Resources	Teacher activities	Learner activities	Assessment
2 min	Induction process for learners	PP Slides 1-8  Power Point slides 9-10	Introduce self, Health & Safety info, learners register, Toilets location.	Learners listen and ask questions	Oral questions,
5 mins	Define Hair styling		Ask learners to define hair styling	Paired Discussions and activity	Oral questions
5mins	Know the different types of hair styles		Explain the different styles of hair	Learner discuss questions	
5mins	Differentiate between the different types of hair styles		Ask learner to suggest hair styles	Watch Learner discuss questions	
5 Mins	Understand how to style two of the hair styles mentioned		Review of what has been learned so far	Read, discuss the results ask questions	
3mins			Talk, discuss		Observation, discussion, questions
5min	Summary				

# 15 Minute Micro Teach Template Lesson Plan

**M Mosston**

## **15 Minute Micro Teach Template Lesson Plan:**

*Designing and Teaching the Secondary Science Methods Course* Aaron J. Sickel, Stephen B. Witzig, 2017-04-13 The improvement of science education is a common goal worldwide. Countries not only seek to increase the number of individuals pursuing careers in science but to improve scientific literacy among the general population. As the teacher is one of the greatest influences on student learning a focus on the preparation of science teachers is essential in achieving these outcomes. A critical component of science teacher education is the methods course where pedagogy and content coalesce. It is here that future science teachers begin to focus simultaneously on the knowledge dispositions and skills for teaching secondary science in meaningful and effective ways. This book provides a comparison of secondary science methods courses from teacher education programs all over the world. Each chapter provides detailed descriptions of the national context, course design, teaching strategies, and assessments used within a particular science methods course and is written by teacher educators who actively research science teacher education. The final chapter provides a synthesis of common themes and unique features across contexts and offers directions for future research on science methods courses. This book offers a unique combination of behind the scenes thinking for secondary science methods course designs along with practical teaching and assessment strategies and will be a useful resource for teacher educators in a variety of international contexts.

*Innovative Digital Practices and Globalization in Higher Education* Keengwe, Jared, 2023-02-17 We are moving toward a future in which digital practices are becoming more ubiquitous. Also there is evidence to suggest that innovative digital practices are changing the face of 21st century learning environments. Critical to 21st century teaching and learning success is continued emphasis on learner preferences shaped by innovative digital technology driven learning environments alongside teacher awareness, knowledge, and preparedness to deliver high impact instruction using active learning pedagogies. Thus the purposeful and selective use of digital learning tools in higher education and the incorporation of appropriate active learning pedagogies are pivotal to enhancing and supporting meaningful student learning. Innovative Digital Practices and Globalization in Higher Education explores innovative digital practices to enhance academic performance for digital learners and prepare qualified graduates who are competent to work in an increasingly global digital workplace. Global competence has become an essential part of higher education and professional development. As such it is the responsibility of higher education institutions to prepare students with the knowledge, skills, and competencies required to compete in the digital and global market. Covering topics such as design thinking, international students, and digital teaching innovation, this premier reference source is an essential resource for pre-service and in-service teachers, educational technologists, instructional designers, faculty administrators, librarians, researchers, and academicians. UTILITY OF TECHNOLOGY IN EDUCATION Dr. JAGANATH B GOND, 2023-01-20 Educational technology in education is important because it helps today's teachers to integrate new technologies and tools into their classroom. Teachers are able to upgrade

and improve the learner centeredness of their classroom. It enables teachers to engage their students in unique innovative and equitable ways. In this course we will know more about latest growing educational technology tools and techniques such as Meaning and Nature of Educational Technology, Approaches to Educational Technology, Communication Technology, Instructional designs, Formulating Instructional Objectives, Teaching Strategies, Methods and techniques of Educational Technology, Learner Centered Strategies, Group Centered strategies, Phases of teaching, Proactive, Interactive and Post active Levels of teaching.

**Primary Languages in Practice: a Guide to Teaching and Learning** Jane Jones, Angela McLachlan, 2009-10-16

The book addresses an impressive range of relevant issues regarding what effective practice involves and how it can be fostered. The authors wisely position their discussion of these issues in the context of overall school improvement efforts, the changes that are occurring in the primary curriculum and overall national policies, not least the Every Child Matters agenda. Professor Mel Ainscow, University of Manchester, UK. An excellent introduction that is comprehensive, clear and very readable. It successfully combines theory and practice, interweaving helpful examples with thoughtful discussion of key issues. It should be very valuable to both beginning and more experienced primary language practitioners. Dr Gee Macrory, Institute of Education, Manchester Metropolitan University, UK. This timely practical guide will equip you with the knowledge, understanding and skills you need to be an effective primary languages practitioner. Ideal for those responsible for implementing the National Languages Strategy's recommendation that each KS2 pupil is taught a language by 2010, the authors offer advice for putting in to practice the statutory requirements and effecting curriculum reform. Both new and experienced teachers will benefit from the coverage of professional learning and reflective practice in school based and international contexts. Written in a friendly style, the authors offer guidance on embedding languages across the curriculum, planning, teaching and assessment. Theory is related directly to classroom practice using a whole range of features including Sample lesson plans and observation reports, Questions for reflection and practical activities, Teachers talking, snap shots of effective school practice, Pupils perspectives and sample pupil work. This book is essential reading for trainee teachers on specialist primary languages training programmes as well as general primary PGCE programmes. It also provides valuable insights for primary teachers, trainers, LA Advisors and Headteachers.

**Educational Psychology** Angela M. O'Donnell, Eva Dobozy, Michael C. Nagel, Brendan Bartlett, Simone Smala, Catherine Wormald, Gregory Yates, 2024-12-31

O'Donnell et al's Educational Psychology provides pre-service teachers with a comprehensive framework for implementing effective teaching strategies aimed at enhancing students' learning development and potential. Through a meticulous examination of relevant psychological theories, supplemented by contemporary local case studies and detailed analysis of lesson plans, the text offers a nuanced understanding of educational psychology without resorting to specialised terminology. Central to the text is a reflective practice framework equipping readers with the essential skills to bridge theoretical concepts with real world classroom scenarios. Emphasising critical thinking and reflective practice, the text underscores their

significance in fostering sustained professional growth and success By integrating reflective practice into the fabric of the narrative utilising real classroom examples Educational Psychology cultivates a deep seated understanding of the practical applications of psychological principles in educational contexts **2024-25 RRB Nursing Study Material YCT Expert Team , 2024 25 RRB Nursing Study Material 602 1195 E** This book contains the solution of the previous 7881 objective questions asked in the examination **2024-25 Staff Nurse Solved Papers YCT Expert Team , 2024 25 Staff Nurse Solved Papers**

**Educational Psychology, Google eBook** Angela M. O'Donnell,Eva Dobozy,Brendan Bartlett,Fiona Bryer,Johnmarshall Reeve,Jeffrey K. Smith,2012-02-02 Educational psychology is the scientific study of how people learn and how teachers can foster learning An understanding of these principles and how they can be applied to classroom situations is as crucial as it ever has been for the contemporary Australian school teacher from early childhood through to secondary school Australian school environments and students are changing Many issues are having an impact on the dynamics of the contemporary learning and teaching environment such as Increasing student diversity including those with special needs The pervasive impact of technology The introduction of the Australian National Curriculum The public reporting of school NAPLAN results This text prepares pre service teachers for their profession by encouraging reflective practice and critical thinking It helps inform the practical teaching experience and develop skills through thought provoking questions activities and lesson plan analysis It is suited for educational psychology subjects taught to student teachers from all sectors early childhood primary middle and secondary **Micro-teaching** Stanford University. School of Education,1967 **Teaching Strategies** Donald C. Orlich,1985 Teaching Strategies is an introductory core text known for its down to earth practical help on the most commonly used classroom teaching strategies and tactics including lesson planning questioning and small group and cooperative learning strategies Part 2 begins with a new chapter on the holistic nature of the instructional process which serves as a foundation to chapters on instructional goals design sequencing management instructional alignments and assessment Reflection Boxes pose questions and challenges that require active student participation including doing Internet searches to explore topics and find resources **A Resource Guide for Teaching** Richard Dean Kellough,1997 Practical and thorough this engaging resource guide truly practices what it preaches hands on activities rich research based performance driven teaching Coverage integrates the best ideas from a broad spectrum of instructional approaches into an eclectic teaching model that the author characterizes as multilevel instruction This is truly one of the most comprehensive books on the market today made even better in this latest edition Coverage includes the relationship among curriculum standards assessment and high stakes testing what s need to establish and maintain a supportive learning environment and updated information on outstanding school programs For professionals in the field of teaching **Andrian Forum ,1996 A Sourcebook of Elementary Curricula Programs and Projects** Far West Laboratory for Educational Research and Development, Samuel N. Henrie,1972 **Elementary Science Methods** David Jerner Martin,2000 This text s unique

constructivist approach guides students in learning by doing Geared to teachers of preschool through sixth grade students it represents the cutting edge of elementary science teaching with up to date investigations into contemporary topics

Anthropology & Education Quarterly ,1995      **Teaching Science as a Decision Making Process** Herbert G. Cohen,Willis J. Horak,Frederick A. Staley,1984      **Catholic School Journal** ,1969      *A Resource Guide for Elementary School Teaching* Richard Dean Kellough,Patricia Roberts,1994 *A Resource Guide for Elementary School Teaching* is a practical comprehensive and concise methods book designed to engage readers in hands on and minds on learning about effective teaching A four part organization covers an orientation to elementary school teaching and learning planning for instruction strategies aids media and resources for effective instruction assessment and professional development A new chapter on elementary school children discusses their development and their diversity and specific strategies for working with them      *A Resource Guide for Teaching K-12* Richard D. Kellough,2007 Practical and thorough this engaging resource guide truly practices what it preaches hands on activities rich research based performance driven teaching With its hallmark practicality the text uses case studies sample units with lessons opportunities for practice and feedback and activities to equip future teachers with numerous examples of best practices current research findings and proven teaching strategies This is truly one of the most comprehensive texts on the market today made even better in this latest edition with its organization designed around the decision making phases of instruction      Systematic Observation of Teaching Richard L. Ober,Ernest L. Bentley,Edith Miller,1971

As recognized, adventure as without difficulty as experience not quite lesson, amusement, as without difficulty as contract can be gotten by just checking out a ebook **15 Minute Micro Teach Template Lesson Plan** as well as it is not directly done, you could bow to even more approaching this life, regarding the world.

We find the money for you this proper as competently as simple quirk to acquire those all. We present 15 Minute Micro Teach Template Lesson Plan and numerous book collections from fictions to scientific research in any way. among them is this 15 Minute Micro Teach Template Lesson Plan that can be your partner.
