Primary Mathematics Penelope Baker, Rosemary Callingham, Tracey Muir, 2023-09-07 Primary Mathematics Integrating Theory with Practice is a comprehensive introduction to teaching mathematics in Australian primary schools. Closely aligned with the Australian Curriculum, it provides a thorough understanding of measurement, geometry, patterns and algebra, data and statistics, and chance and probability. The fourth edition provides support for educators in key aspects of teaching, planning, assessment, digital technologies, diversity in the classroom, and integrating mathematics content with other learning areas. It also features a new chapter on the role of education support in the mathematics classroom. Each chapter has been thoroughly revised and is complemented by classroom snapshots demonstrating practical application of theories, activities to further understanding, and reflection questions to guide learning. New in this edition are Concepts to Consider, which provide a guided explanation and further discussion of key concepts to support pre and in-service teachers' learning and teaching of the fundamentals of mathematics. *Towards a Collaborative Society Through Creative Learning* Therese Keane, Cathy Lewin, Torsten Brinda, Rosa Bottino, 2023-09-27 This book contains the revised selected refereed papers from the IFIP World Conference on Computers in Education on Towards a Collaborative Society through Creative Learning WCCE 2022 Hiroshima Japan August 20-24, 2022.
