**Assessing Maritime Power in the Asia-Pacific** Greg Kennedy, Harsh V. Pant, 2016-03-09 Leading academics from around the world who specialize in analysing maritime strategic issues deliberate the impact of the American pivot or re balance strategy and the Air Sea Battle operational concept on the maritime power and posture of a number of selected states Intending to strengthen US economic diplomatic and security engagement throughout the Asia Pacific both bilaterally and multilaterally the re balance stands out as one of the Obama administration s most far sighted and ambitious foreign policy initiatives

*Dangerous Allies* Malcolm Fraser, Cain Roberts, 2016-04-12 Australia has always been reliant on great and powerful friends for its sense of national security and for direction on its foreign policy first on the British Empire and now on the United States Australia has actively pursued a policy of strategic dependence believing that making a grand bargain with a powerful ally was the best policy to ensure its security and prosperity *Dangerous Allies* examines Australia s history of strategic dependence and questions the continuation of this position It argues that international circumstances in the world and in the Western Pacific especially now make such a policy highly questionable Since the fall of the Soviet Union the United States has also changed dramatically making it less relevant to Australia and a less appropriate ally on which Australia should rely Malcolm Fraser argues that Australia should adopt a much greater degree of independence in foreign policy and that we should no longer merely follow other nations into wars of no direct interest to Australia or Australia s security He argues for an end to strategic dependence and for the timely establishment of a truly independent Australia

*Strategic Culture, Securitisation and the Use of Force* Wilhelm Mirow, 2016-04-14 This book investigates and explains the extent to which different liberal democracies have resorted to the use of force since the 9 11 terrorist attacks The responses of democratic states throughout the world to the September 2001 terrorist attacks have varied greatly This book analyses the various factors that had an impact on decisions on the use of force by governments of liberal democratic states It seeks to explain differences in the security policies and practices of Australia Canada France Germany and the UK regarding the war in Afghanistan domestic counterterrorism measures and the Iraq War To this end the book combines the concepts of strategic culture and securitisation into a theoretical model that disentangles the individual structural and agential causes of the use of force by the state and sequentially analyses the impact of each causal component on the other It argues that the norms of a strategic culture shape securitisation processes of different expressions which then bring about distinct modes of the use of force in individual security policy decisions While governments can also deviate from the constraints of a strategic culture this is likely to encounter a strong reaction from large parts of the population which in turn can lead to a long term change in strategic culture This book will be of much interest to students of strategic culture securitisation European politics security studies and IR in general
