Gene Pease, 2017-07-19 Math is Everywhere has 365 math activities you can do with your kids right now. You could watch bugs, listen to music or ride a bike. You'll find ideas to entertain with math while waiting for a dentist appointment. You can make flubber or a real dirt cake that you can eat. You will not find any worksheets or artificial word problems, but your child probably will want to create some, so beware. You won't need to buy a thing unless it's the groceries you and your child will use to make dinner. Math is Everywhere is a book for anyone who wants to answer the question: When am I ever going to use this math?

The text includes tips for using the strategies for parental involvement, gathering knowledge of the student's background, and promoting social emotional learning. A companion website provides new video of the strategies being used in classrooms. Accelerating Literacy for Diverse Learners provides teachers a powerful framework to guide their decisionmaking processes in support of their students' sociocultural, linguistic, cognitive, and academic biographies. The book presents a varied set of strategies that actively engage students in communicating, displaying, sharing, analyzing, reflecting on, and using their own understandings to develop new understandings and gain
