**Elementary Social Studies** S. G. Grant, Bruce VanSledright, 2006 This text frames and develops a coherent practical and engaging approach to teaching and learning elementary social studies. The authors combine the latest research on learning patterns curriculum structure and presentation and assessment with practical issues like classroom management goal establishment and creative lesson planning. Elementary Social Studies is organized according to four commonplaces of education learners and learning subject matter teachers and teaching and classroom environment to help teachers create a powerful learning environment for their students. The Second Edition includes additional emphasis on issues of multiculturalism and diversity and teaching in the lower primary grades. New More Theory to Practice examples are included throughout the text. Now identifiable by marginal icons the examples in Chapter 2 concentrate on incorporating constructivist principles into the teaching learning process while those in Chapter 5 focus on choosing teaching strategies curriculum materials and classroom assessments. New More references to social studies standards and standardized assessments are presented throughout the text to help teaching students understand how their lessons relate to the certification process and the assessment of schools teachers and students. New More explicit connections between social studies and language arts instruction Chapter 4 are drawn to provide guidance on teaching in schools that have marginalized social studies instruction in order to concentrate on reading and math in preparation for standardized testing. New Expanded content allows the author to provide the most comprehensive updates and information on all topics presented. New Marginal icons have been reduced from six categories to four diversity standards theory to practice examples and relevant research for purposes of clarity. These icons help call out where relevant information is presented in the text. In Your Classroom boxes offer practical teaching suggestions such as the use jigsaw puzzles book talks and mini lessons. An appendix of Children's Literature provides approximately 100 specific titles that correspond to the various unit ideas throughout the text.

**Smart Tests** Catherine M. Walker, Edgar Schmidt, Kat Mototsune, 2004 High stakes accountability and the growing move towards standardized testing are placing teacher knowledge and assessment skills under ever increasing scrutiny. Teachers know what is going on in their classrooms and have first hand reliable evidence of what their students can accomplish. They can be the major factor in student assessment and help their students better demonstrate what they have learned. Smart Tests shows educators how to create well structured evaluation tools that match assessment tasks to the purpose and content of instruction. Teachers learn how to relate testing directly to classroom goals and activities and make assessment an integral part of learning and teaching not just the end result. They will find the information they need to build assessment tasks that give students in grades K-8 the opportunity to succeed. These tasks encourage students to apply new knowledge reflect and

*Designing Rubrics for K-6 Classroom Assessment* Debbie Rickards, Earl H. Cheek, 1999 The role of rubrics in assessing student progress is explained. Information and examples on how to develop rubrics to fit your needs are also provided.

**Social Science Record**, 1993    **Transforming Classroom Grading** Robert J. Marzano, 2000 Robert Marzano provides a thorough discussion of what grades are for what they should include and how to compute final scores that accurately reflect student learning    *A Pig Don't Get Fatter the More You Weigh It* Phyllis Jones, Judy F. Carr, Rosemarie Ataya, 2007 No matter how many times you weigh a pig all you learn is how much it weighs. If you want to learn something else you need a different assessment. This sensible book demonstrates the power of classroom assessments to improve both teaching and learning. In clear straightforward language the authors explain how well constructed assessments provide data that is essential to the development of learning opportunities for all students regardless of their backgrounds. This is an insightful overview of a subject that has until now generated far more heat than light. With contributions from teachers and teacher educators this pragmatic book features A highly readable overview of a subject that is often over complicated. Concise chapters illustrated with vignettes from real life in the classroom. Directions for integrating assessment results, curriculum expectations and individual students learning needs. Alternative approaches that have been proven to be useful in assessing the needs of a wide range of students. Examples of successful collaborations among school staff based on assessment results in creating cultures that support teachers and learners

**Teaching in the Middle School** M. Lee Manning, Katherine Toth Bucher, 2001 The exceptional feature of this book is that it covers both middle school concepts and the basic information needed to understand young adolescents ages 10-14. It provides the essential knowledge for middle school teaching including young adolescent development, organization, core and exploratory curricula, instructional strategies and concepts. Distinguished by its skillful blending of research and practice it enables readers to move from theory to practice. Chapter coverage explores how middle school educators provide culturally and gender responsive educational experiences for particular topics. Discussion of the latest technology gives today's teachers access to the vast world of information and helps them take advantage of the rapidly changing technological advances. Anecdotal accounts, case studies and scenarios provide actual accounts of experiences with young adolescents and how middle school teachers have handled these situations and issues. For general education teachers at the middle school level

**Rubrics** Germaine L. Taggart, Sandra J. Phifer, Judy A. Nixon, 1998 Describes strategies teachers and administrators may use to construct and adapt rubrics and explains how to use them to assess instruction and performance    **Children and Their World** David A. Welton, John T. Mallan, 1999 Designed for preservice teachers this text consolidates social studies content into a framework for practical instruction and lesson planning. It places social studies in a thoroughly modern context and explores how such factors as language diversity and standards at the local, state and national level affect teachers. The text retains its hallmark features such as model unit lessons, teacher tested activities, technology updates and authentic children's work and the

Resource Handbook serves as a valuable tool for on the job use The emphasis on current topics includes coverage of constructivist learning cooperative learning service learning character education and the teaching of children with limited English proficiency Specific examples from the NCSS help students connect standards to the model lessons and activities presented in the text *Management & References* ,2010 Social Studies Gregory Paul Wegner,Association for Supervision and Curriculum Development,2000 **Middle School Journal** ,2000 *Science Assessment* Julia Jasmine,1994 A series of assessments for science for grades 5 6 15 School Questions and Discussion Mark F. Goldberg,2002 Here s a timely useful book that gets at some of the most pressing educational issues of our time From school safety and testing to standards leadership and a multitude of curriculum related issues Goldberg cuts through the rhetoric and jargon and provides readers clear information and practical answers and direction for each question he raises
