

After independence from England, thirteen states came into being from the thirteen colonies. The states devised a way they could be able to work as one. In this system, the state government had more power and the national government was weak compared to when the King was running it during the colonial period. This system made the nation weak and they opted to form a system of government. They wrote a document called the constitution to replace the Articles of consideration. The bill of rights protected the individuals against oppression by the government.

Gun crimes have been on the rise in the America and from the statistics, many people lose their lives every second by bullets from their assailants. The second Amendment allows the U.S. citizens the right to bear firearms. The law ratification was in December 1791 .This gave more power to state militias. The ratification of the constitution was a compromise between federalists that supported the constitution and the anti-federalists that did not support the constitution.

Since the ratification of the constitution, the people of America have been over the meaning of the amendment and its interpretation. One side says it provides for the collective rights while the other opposing side says it provides for the individual rights. This interpretation from the two groups has been ongoing. The collective side says that the amendment gives each state a right to train and maintain its militia to provide protection against the federal oppressive government. The militias consist of civilians but acted as soldiers occasionally. They say that the clause “well-regulated militia” means that only militia should have the right to handle arms. The purpose of the clause is to protect the states to maintain organized and formal militia units.

Militia Stand Down: The First Objective Reading of the 2nd Amendment Geoffrey Smith, 2017-04-14 On June 12 1823 Thomas Jefferson quilled the following History may distort truth and will distort it for a time by the superior efforts at justification of those who are conscious of needing it most Nor will the opening scenes of our present government be seen in their true aspect until the letters of the day now held in private hoards shall be broken up and laid open to public view What a treasure will be found in General Washington s cabinet when it shall pass into the hands of as candid a friend to truth as he was himself This volume of work is the public view he speaks of because ALL interpretations of the 2nd Amendment have exploited history to re author its meaning This full story is told with the hoarded letters spanning 84 years and their treasure ultimately revealed by the Candid a friend of Truth The 2nd amendment was crafted ahead of its time and its time has finally arrived It is literally the Holy Grail of Gun Control and the final legacy of the United States Constitution **The 3 Hour**
