Alanon Service Manual:

It Takes a Family Debra Jay, 2014-10-21 Most books on recovery from addiction focus either on the addict or the family. While most alcoholics and addicts coming out of treatment have a recovery plan, families are often left to figure things out for themselves. The author takes a fresh approach to the recovery process by making family members and friends part of the recovery team beginning in the early stages of sobriety.

Group Psychotherapy and Recovery from Addiction Jeffrey D. Roth, 2016-01-08 Learn what it's like to be a member of an addiction recovery group. Group Psychotherapy and Recovery from Addiction: Carrying the Message is NOT a self-help book. Instead, it's a rare opportunity to sit in on a virtual therapy group and take part in a virtual Twelve Step meeting. The book's unique perspective lets you compare and contrast the experience of participating in a psychotherapy group and a Twelve Step group, including an examination of the Twelve Steps and The Twelve Traditions. The book demystifies the process of recovery, demonstrating all the important elements of the group process, including free association, resistance, transference, re-enactment, boundary management, interpretation, and confrontation. Rather than relate shared stories of addicts in recovery or present abstract formulations on the group experience, Group Psychotherapy and Recovery from Addiction takes you inside the experiential process of recovery that can't be achieved in isolation. Your experience as a group member will help solve the mystery of the group process and provide you with insight into the scientific elements of recovery as the book builds a bridge between the Twelve Step programs and a psychoanalytic model of group functioning. Group Psychotherapy and Recovery from Addiction examines how the group carries the message of recovery, the higher power of the group as a symbol of authority, the development of prayer and meditation as group analytic functions, addiction as a family disease, making amends as an export process, powerlessness and free association, unmanageability and resistance, surrender and transference, inventory and re-enactments, humility and working through The Twelve Steps and The Twelve Traditions of Alcoholics Anonymous, and much more. Group Psychotherapy and Recovery from Addiction: Carrying the Message is a unique resource for group therapists, addiction treatment professionals, and anyone else interested in group therapy, especially those who have personal experience with Twelve Step recovery.

Al-Anon Narratives Grazyna Zajdow, 2002-08-30 According to the author, in Australia, men drink alcohol as a mark of masculinity and women take care of drinking men as a part of normative femininity. And while research on alcoholics and alcoholism is common, very few studies consider the lives of the women who are married to alcoholics. Here, Zajdow details and explores the lives of such women who belong to Al-Anon, where they may share their experiences and offer their stories in a nonthreatening and supportive environment. The author presents the narratives of these women in the context of her analysis of the self-help group to demonstrate how people construct and reconstruct their lives as coherent stories about themselves and to show how these self-stories can be changed and reconceptualized within the context of the group. Unique in its examination of self-stories offered within a self-help group, this book challenges sociological knowledge about the way

these mutual aid groups operate as communities of interest and help Zajdow begins by laying the groundwork through a discussion of the professional and lay discourses on women's relationships to alcoholic men. She then provides the basis for using self stories to examine a group of people, the individuals in the group and the behavior of the group in general. A history of Al Anon as a self help group is also detailed and the author compares the Australian meetings to meetings in other parts of the world. The stories themselves are then examined and discussed in terms of how they relate to group processes and individual change through Al Anon. Tracing the way that these women move from a place of despair to one of hope and meaningful change, this also represents a sociological exploration of gender, families and communities.

As we become more and more of a global trading world, the challenges of leading and managing within this turbulent environment and its associated complex interconnected markets and disconnected relationships are indisputable. So just how far can any change requirements be practically engaged with whilst also keeping the employee at the organisation's central core? Today's business world cries out for people who can lead with a cross cultural global perspective, who can lead from the heart as well as the mind and address and manage problems on not just an integrated local level but also with a healthy holistic perspective. The subject of spirituality has long been discussed within academic research but there still seems to be a misunderstanding and stagnation of both its real meaning and application amongst business academics, the population and organisations alike. This book aims to provide a realistic message to help those who are looking for some answers, for those who are looking for a way to advance their own skill set and progress both their careers and the organisation's current standing to move from being confused and insecure about strategies and tactics to positively contributing to not only their own but also to the employees well being and the business's overall purpose and intention. By basing the content upon real and relevant, interesting, modern day perspectives, applications, requirements, opportunities and benefits, all combined into a manual for thought and a practical framework for action, this book will significantly and realistically move the subject of spirituality forward. This book will be of interest to researchers, academics and students with a special interest in the positive influence of spirituality within the workplace and everyday healthy living.
