over the course of your academic career. Also,
this guide will help you create a study plan to
achieve a high performance. Finally, this study
guide provides focus on creating test strategies
of the TEAS and plans (strategies include: strategies,
diagrams, and graphic organizers) to help you
answer test questions. Each section ends with practice
questions designed to show you what questions on
the TEAS, a sample application of the content
across the test questions is also included to
show you what questions are included in
the TEAS.

TEAS SUBJECT AREAS

The TEAS test was developed for health science students to measure the academic preparedness of prospective students. Questions on the TEAS assess student knowledge of the disciplines that address topics covered in grades 9-12. The disciplines include skills and concepts that health science educators believe are most important for success in health science programs. The disciplines cover the academic subject areas of:

- Reading
- Math
- Science
- English and Language Usage

Introduction

The TEAS covers the essential knowledge
necessary for entry into the disciplines of the
TEAS. Keep in mind that the concepts provided
in the material are not comprehensive. They do
not include all the possible content categories
on the test questions. This chapter also, however,
provides a clear overview of the content and skills
you will encounter on the TEAS.

TEAS QUESTIONS

The TEAS is composed of 160 items that include
100 selected patient items, 40 questions of which
are math, multiple-choice questions with
the identification of the TEAS test area plus an
area, alternate item types will also be presented
and these items will need to be answered
prior to the test. These include:

- Multiple choice (all of the types)
- Supply answer (all in the blank
format response)
- Selecting from options in the correct
sequence
- Use spot format as seen in an image

The test is available in both paper and pencil
multiple-choice question and computer-
administered formats. Questions from the
four subject areas are grouped in separate
sections, and each has a sequence. In addition
to this, the following table provides the
number of questions and their distribution per
content area of the TEAS, listed in order of administration:

Content Area	Number of Questions	Percent
Reading	40 questions (5 percent)	5.0 percent
Mathematics	40 questions (5 percent)	5.0 percent
Science	40 questions (5 percent)	5.0 percent
English and Language Usage	40 questions (5 percent)	5.0 percent

Test 160 questions (5 percent) 100 are
multiple choice, selected patient questions
by the test topics being assessed. There are a set
number of questions for each test topic. The
following table shows the number of content
questions for each test topic:
